

Waitomo District Library provides a free Community Outreach/Homebound service.

This is for customers living in Te Kuiti who are unable to visit the Library due to illness. A Library Team member will select books on your behalf and deliver them to your home. When books are delivered any items needed to be returned will be collected. You may be eligible if you have a physical inability to leave your home or extreme physical difficulty in carrying books home.

Conditions of the service

- Proof of an existing medical condition may be required (e.g. a doctor's certificate).
- In the case of a temporary illness/incapacity, the Outreach Service may be available, for the duration of the illness/capacity if you fit the eligibility guidelines above.
- Rural residents can order books via the "Books by Mail" service.
