Requirement

I wish to speak to Council about my submission

Yes

The future of Waitomo District Landfill

I agree with Option 1 - Continued disposal of waste and expansion of the landfill

My comments on the Landfill

Why go outside when it's own and near or in our district. Saves unnecessary cartage ,transportation and resources costs.also dumping of rubbish should be free where people will get encouraged to dispose their rubbish to dump . This will reduce council to pick rubbish and will be quick and effective collection.secondly get rid of council dearest bags to buy at supermarkets. Its costing every household good amount of money .people working at dumpsitec should separate plastics and send it to recycling plants.

The future of the Council Owned seawall at Mōkau

My comments on the Mōkau Seawall

Option B

Reduce the District Wide Benefit Rate for water and wastewater

Option 1: Reduce the District Wide Benefit Rates (Council's Preferred Option)

My comments on reducing the District Wide Benefit Rates for water and wastewater

Please organise the water department.rates paid on water is extremely high .

Do you agree with our amendments to the Rates Remission Policy?

Feedback

No idea I don't get one

Do you agree with our amendments to the Revenue and Financing Policy?

Any feedback?

No idea .council should put its rate payers first on their agenda in paying rates.it should be affordable.\$4200 a year in te Kuiti is unbelievable.. its a poor town and getting this money is really hard .and to top it pay Waikato yearly rates,buy blue rubbish bags and go to dump and pay \$\$\$ just to throw it away.

Would you like to make any further comments?

Please try to help people and not to squeeze every single bit of from the rate payers .if rates are affordable people will love to spend in district and the whole district will flourish and attract more people.

I am not a robot
