TURANGI 3334

Introduction:

New Zealand Forest Managers Ltd (NZFM) is a privately owned forest management company established in 1989. The company is a specialised contract forest management organisation that provides commercial forest owners with a comprehensive management service covering the full range of operations from forest development and establishment, protection and investment through to harvesting and marketing.

Within the Waitomo District, NZFM manages plantation forests for Global Forest Partners (GFP)

Comments on the Long Term Plan 2015-2025:

Draft Public Amenities Activity Management Plan 2015-2025, page 39

Provision of a caravan dump station at Benneydale is supported by NZFM. We have experienced a number of incidents where rubbish has been dumped within the forests we manage of which becomes an eyesore to the users of the forest, a clean-up expense to our clients' and an environmental hazard. Establishing a dump station is considered to be very sensible.

Thank you for the opportunity to provide comments to the Long Term Plan. If you have any questions related to this submission, please call.

Yours faithfully
