Your FEEDBACK

Please add a section to the policy outlining where people with Drones can fly thier drones on council land.

There needs to be a place for rate payers who fly drones to be allowed to do it, without applying to council. The points outlined as to why parks and recreational places are places where drones can not fly are rather silly, they are places where noise should be made, perhaps there should just be a weight limit so the safety aspect of the drone falling and hurting some one is minimized.

Submissions

I wish to speak to Council about my submission

No
