Should we move the Awakino Transfer Station to Mōkau?

I agree with Option 2 - Keep the Transfer Station in Awakino

My feedback on the Awakino Transfer Station

I write in support of Option #2, or, another option (site) that may not have been considered. Frankly I have very little confidence that the proposed move to the site in Mokau will be acceptable to residents. The reason I say this is that every year, the recycling bins at Mokau are inadequately managed over summer , leading to large amounts of rubbish being stock piled. You say in your letter that bins will be emptied 'regularly' , how regularly? Rubbish transfer stations are a contentious issue , and especially if located in residential areas. They create noise, odor, increased seagull activity, and vermin, all public health issues. What is being proposed to mitigate odor?. My question is, has any other site on the fringe of the village been considered?. For example, Tainui Domain?.

Do you have any feedback on the Draft Annual Plan 2026-27?
