Option 1
I agree with Council's preferred option to postpone the harmonisation of water supply rates until Year 4 (2024/2025).

Option 2
I would prefer that Council keeps the status quo and complete this work as planned in Year 1 (2021/2022), noting this will largely impact Te Kuiti ratepayers.

My comment on this proposal

Mokau water rates are too high already and deferring the completion of harmonisation will result in significantly more cost for Mokau, who's rates are already exceptionally high for the services received.
