My comments on this proposal

As a long term investor in New Zealand Forestry based on the need to make provision for my retirement and a desire to support the fundamental principles required for minimising the effects of Climate Change, I am extremely disappointed to see the positively Draconian proposal being put before Council to support the upkeep of the rural roads. Now is not the time to punish investors, most of whom will need to reap a reasonable gain from 30 years of support. To recommend the instigation of such an enormous hike in charges is extremely disappointing and seems to be indicative of little or no planning having been carried out by the Council over the last thirty years.

Te Kūiti flooding remedies

Option 1 - Status quo - low level investment, small scale improvements

Conversation: Impact of retaining 3 Waters

I agree with keeping the status quo with investing “as and when needed”

Your comments on our approach to how we will deliver our 3 Waters services

I do not agree with the 3 Waters Proposal

What do you think about our plans for projects and activities?

What do you think about our plans for finances and rates?

Do you have any other feedback on our Draft Long Term Plan 2024-2034? (for example our landfill and sludge disposal)
