**Should we move the Awakino Transfer Station to Mōkau?**

I agree with Option 2 - Keep the Transfer Station in Awakino

**My feedback on the Awakino Transfer Station**

There should not be a transfer station at the entrance to our village. No information is given as to what the "additional summer hours" will be.

No indication as to where the gates will be as this will be where rubbish will be left when the gates are closed. Uncontained rubbish will result in rats.

Who will be doing the follow up if cameras are used to deter illegal dumping?

Any plan for scrap metal, whiteware, tyres, timber, concrete?

Where can this be taken?

We are immediate neighbours sharing a boundary with the proposed site and absolutely do not want the transfer station here.

**Do you have any feedback on the Draft Annual Plan 2026-27?**

Yes

**My feedback on the Draft Annual Plan 2026-27**

In the information regarding moving the Awakino Transfer Station, you say you are upgrading the capacity of the rubbish and recycling bins on the main street. REMOVE THEM COMPLETELY so travellers have to take rubbish home with them.

Increasing the capacity will not solve the problem of overflowing bins- locals will fill them up. I think you'll find the majority of the rubbish and recycling in these bins is not the travelling public but locals - both holidaymakers, batch occupants and permanent residents.
