Introduce a targeted or differential rate on the District Roding Rate -

Which option do you prefer? :

Option 2 (our preferred option)

My comments on this proposal

I agree that WDC should increase the Roding Rate for logging trucks, but only slightly. These logging operations are paramount to the area's economy. If the Roding Rate is put up too high, the logging will go elsewhere. WDC should also not be blaming road repair solely on logging trucks - what about milk trucks, trucks carrying heavy loads for building, passing through the district? A maximum of 10% increase only should happen - definitely not 1200%. That is wholly ludicrous and discriminatory and very myopic of WDC
