TO WHOM IT MAY CONCERN

On reading the Waitomo District Council document "The Way Forward" it became very clear to our organization that the proposed North King Country Sport & Recreational Centre fits extremely well with the Council's current and longer term goals for the district. The Council's vision itself "Creating a better future with vibrant communities and thriving business," along with the strategic direction to make the district an attractive place that people will want to come and visit, work and live in, fits well with the project.

For the purposes of submitting a simple but significant submission the Board of Trustees has focused on the Community Outcomes that the Council aim to achieve.

Vibrant Communities

Outcome 2 – A place where all age groups have the opportunity to enjoy social, cultural and sporting activities within our District.

Thriving Business

Outcome 6 – A place that attracts more people who want to live, work and play, and raise a family.

Effective Leadership

Outcome 8 - A place where the development of partnerships for the delivery of programmes and services is encouraged and pursued.

Sustainable Infrastructure

A place that provides safe, reliable and well managed infrastructure which meets the District community needs and supports maintenance of public health, provision of good connectivity and development of the District.

The planned facility will be impacted but to a lesser degree, on community outcomes 1,3 and 7. Council intention to place greater emphasis on improving the community environment and the well-being of its residents so that the District can retain or build on its current population will be well supported by a sub-regional facility of the size proposed over the next 35 years plus.

Yours sincerely,

BA Stephens
