

WDC Notices

Road Works - Rora Street, Te Kuiti

With roadworks commencing from Monday 30 September, WDC contractor Higgins have provided a feedback line for calls regarding dust or other roads and footpath issues that relate directly to this project.

24 hours (07) 843 1790

After hours calls will be diverted to an appropriate cell phone.

The road works will cause some disruption to the usual traffic and pedestrian flows, as well as services (water) availability. The road reconstruction will be phased to allow traffic to use one lane throughout the process in an effort to reduce the potential effects on businesses. At least 48 hours notice of any works will be given where the work could potentially disrupt water supply.

In an effort to keep business owners fully informed, WDC will hold regular informal on site meetings to advise of progress, timelines, stages and to answer business operator questions. We will publish these details in due course.
