**Should we move the Awakino Transfer Station to Mōkau?**

I agree with Option 2 - Keep the Transfer Station in Awakino

**My feedback on the Awakino Transfer Station**

I totally disagree with moving the transfer station to Mokau. It will not solve the issues you describe and is not a good idea to move a transfer station to a residential area and reduce the land values in that area. It will be noisy (as you admit in your article as you mention there will be measures taken to "try" to reduce noise) it will likely bring odor and possibly attract rodents. Being only open on a Sunday and not directly at the public toilets it will not solve the issues you hope to resolve of overflowing bins and illegal dumping of rubbish. Leave the transfer station where it is, possibly open it on another day as well if the need is there. Instead, increase the number of bins that are at the public toilets and empty the bins more often. This can be scaled so they are emptied more on busy times of the year when people are traveling through Mokau. Maybe install some signage in key spots where illegal dumping is happening and fine anyone caught. Publish that x number of people have been fined for illegal dumping of rubbish in Mokau... people would quickly share this on social media and hopefully with bins available that are regularly emptied people would learn that it's not OK to dump rubbish in Mokau. Council, it's not OK to plonk a transfer station in the middle of a residential area of Mokau. Nobody wants it there. Do not go ahead with this idea that has already been voiced and firmly rejected.
