

Home insulation project

We all want a warm, comfortable home, but many New Zealand houses are difficult and expensive to heat to healthy temperatures.

Does your family have high health needs?

- Do you live in a house built before January 2000?
- Do you have a valid community services card?
- Do you have someone in your home who is over the age of 65 or under the age of 17?
- Do you own your own home or rent privately (not a Housing NZ property)?

Waitomo District Council would like to assist residents who may be eligible to receive **free home insulation** from a project funded by Autex Industries and Energy Efficiency and Conservation Authority (EECA).

Up to **30 families in the Waitomo District** will benefit from this opportunity.

If you fit the above criteria and would like to find out more about this opportunity please contact Donna Macdonald - Community Development Coordinator at Waitomo District Council on 07 878 0803 or 0800 932 4357 by **5pm November 10th 2014**.
