The main objective proposed by Council for the 2015-25 LTP is to stay on an already charted course -focus on economic development, facilitate the development of a vibrant community, lower debt and to keep rates increases affordable over time. Council intends to **maintain the services it delivers at existing levels**. We would like your feedback specifically on the following aspects. **Please indicate which option you support.**

 Question 1 (page 9): Economic Growth – method of delivery Option 1 Option 2
None of these. As its extra on Rates and most of these should be self funding we have to in our Business

 Question 2: Should Council continue with its focus on economic development in a staged but steady manner?
Prove to me how it will benefit me in my business were again I have to fund it my self

 Question 3 (page 14) : UAGC and General Rate Option 1 Option 2

 Question 4 (page 16) : Debt reduction method Option 1 Option 2
there is no way the Rate payers should pay extra for some years just of mis management

Thank you for your feedback.
