

WDC Notices

WATER RESTRICTIONS FOR TE KUITI, BENNEYDALE AND PIOPIO

These townships are now on Water Alert Level 1 - Conservation.

WATER ALERT LEVEL 1 - CONSERVATION

- Avoid watering gardens during the day (early morning or late evening is best), use a water saving attachment on your hose and do not leave hoses running unattended. Avoid washing paths and driveways, use a broom.
- Avoid re-filling your swimming pool and use a pool cover.
- Turn off the tap when brushing your teeth or shaving.

The recent rainfall means Council can reduce the Water Alert Level for Te Kuiti, Benneydale and Piopio townships. Council would like to thank residents for their support in the adoption of water conservation measures during the drought. Your continued efforts to reduce water wastage indoors and outside, will ensure that there is plenty of water available for everyone.

DRAFT EXCEPTIONS ANNUAL PLAN 2013/14 - HAVE YOUR SAY

The draft Exceptions Annual Plan (dEAP) 2013/14 is now open for public consultation, until Thursday 9th May 2013. This document contains the key proposals and identifies the impacts in the coming year. Council would like to hear your views on various proposals for the 2013/14 financial year.

To read a Summary of the dEAP and make a submission online, visit:
