

WDC Notices

ROUTINE HYDRANT FLUSHING - PIOPIO

Veolia Water will be undertaking routine hydrant flushing to improve the quality of the water supply in Piopio on the following:

Wednesday 30.09.2015

Moa St North, Tui St, Kiwi St, Huia St, Aria Rd, Moa St South, Kaka St, Kawana St, Poto St, View Terrace, Kuku St and Kea St.

While undertaking this work, Veolia Water will make every effort to minimise the impact on supply. In the event that temporary deterioration of your water quality occurs due to flushing in your street, it is advisable to first run your garden tap then the others for several minutes to remove any air bubbles and to restore water clarity. Please do not run water through in house filters before taps are running clear.

Should you have any enquiries regarding the work undertaken, please contact Waitomo District Council during business hours on 878 0800.

While undertaking this work Veolia Water will make every effort to minimise the impact on supply. In the event that temporary deterioration of your water quality occurs due to flushing in your street, it is advisable to first run your garden tap then the others for several minutes to remove any air bubbles and to restore water clarity. Please do not run water through in house filters before taps are running clear.

Should you have any enquiries regarding the work undertaken, please contact Waitomo District Council during business hours on 878 0800.

NOTICE OF INSPECTION - TE KUITI URBAN STORMWATER NETWORK

It is Council's responsibility to manage the urban stormwater network and ensure safe and efficient operation of the network.

WDC would like to notify the public that Council's Water Services team will be inspecting the urban stormwater network in Te Kuiti, over the month of October 2015 (weather permitting).

Council will be recording important asset data about the location and condition of stormwater pipes, drains and manholes. This work will enable us to identify any assets that need to be renewed or replaced. We will also use this information to plan and budget for future upgrades as part of our next Long Term Plan.

Our staff will be contacting property owners and tenants directly, to provide notification of the intended inspection of stormwater assets located on private property.

Under section 17.5 of WDC's Water Services Bylaw, property owners and tenants must allow us to access private property in order to inspect the stormwater pipes located on that property.

You can view and download a copy of that Bylaw which records Council's responsibilities with regard to stormwater management, on our website www.waitomo.govt.nz/publications/bylaws - alternatively a hardcopy can be requested by phoning our Customer Services team.

Enquiries regarding the inspection of the stormwater network should be made to Andreas Senger -Manager Water Services on (07) 878 0800 or freephone 0800 932 4357.
