**My comments on the Mōkau Seawall**

As a ratepayer in Mokau I feel the time has come to activate the planned, managed retreat that was agreed to in approximately 2008 after extensive public consultation. As a result I believe we should remove the existing infrastructure at the end of Point Rd. As a compromise council should investigate upgrading the beach excess track which is approximately 30 mts back on the left. As the current steps to be removed from the point are screwed together these materials should be able to be repurposed to upgrade the inside track. As a ratepayer facing increasing costs I believe that no more money should be wasted on the seawall at the end of Point Rd.
