Term	Definition
accessory	means a detached building , the use of which is ancillary to the use of any
building	building, buildings or activity that is or could be lawfully established on
	the same site, but does not include any minor residential unit.
access way	has the same meaning as s315(1) of the Local Government Act 1974 (as
	set out below):
	access way means any passage way, laid out or constructed by the
	authority of the council or the Minister of Works and Development or, on or
	after 1 April 1988, the Minister of Lands for the purposes of providing the
	public with a convenient route for pedestrians from any road , service lane,
	or reserve to another, or to any public place or to any railway station, or
	from one public place to another public place, or from one part of any
	road , service lane, or reserve to another part of that same road , service
	lane, or reserve.
additional	means:
infrastructure	(a) public open space
	(b) 'community infrastructure' as defined in section 197 of the Local
	Government Act 2002
	(c) 'land transport' (as defined in the Land Transport Management Act
	2003) that is not controlled by local authorities(d) social infrastructure, such as schools and healthcare facilities
	(e) a network operated for the purpose of telecommunications (as defined
	in section 5 of the Telecommunications Act 2001)
	(f) a network operated for the purpose of transmitting or distributing
	electricity or gas.
adjacent	means an allotment or site that is directly adjoining and contiguous to
	another allotment or site , as demonstrated in the diagram below:
	Site 1 Site 2 Site 1
	Site 2
afforestation	means planting and growing commercial forestry trees on land where
	there is no commercial forestry and where commercial forestry

	harvesting has not occurred within the last 5 years; but does not include
	vegetation clearance from the land before planting.
agricultural	means the intermittent operation of an aircraft from a rural airstrip or
aviation	farm helipad for primary production activities, and; conservation
activities	activities for biosecurity, or biodiversity purposes; including firefighting,
	stock management, and the application of fertiliser, agrichemicals, or
	vertebrate toxic agents (VTA's). For clarity, aircraft includes fixed-wing
	aeroplanes, helicopters, and unmanned aerial vehicles (UAV's).
agricultural,	means the use of land and/or buildings where the primary purpose is to
pastoral and	produce livestock, crops and other agricultural produce that relies on the
horticultural	productive capacity of land and maintains the groundcover, including:
activities	(a) Agriculture, pastoral/livestock farming, dairying and horticulture.
	(b) Storage of horticultural and agricultural products produced on the site
	or holding .
	(c) The storage and spreading of solid and liquid animal waste.
	(d) Beekeeping.
	(e) Covered and uncovered stock yards.
	(f) Accessory buildings including farm implement sheds, milking sheds,
	woolsheds, stables, hay barns and buildings for the storage of feed which
	is to be used on the holding .
	(g) Agricultural aviation activities.
	(h) Stud farming and horse training.
allotment	has the same meaning as in section 218 of the RMA (as set out in the box
	below)
	(2) In this Act, the term allotment means—
	(a) any parcel of land under the Land Transfer Act 2017 that is a
	continuous area and whose boundaries are shown separately on
	a survey plan, whether or not—
	(i) the subdivision shown on the survey plan has been
	allowed, or subdivision approval has been granted, under
	another Act; or
	(ii) a subdivision consent for the subdivision shown on the
	survey plan has been granted under this Act; or
	(b) any parcel of land or building or part of a building that is shown
	or identified separately—
	(i) on a survey plan; or
	(ii) on a licence within the meaning of subpart 6 of Part 3 of the
	Land Transfer Act 2017; or
	(c) any unit on a unit plan; or
	(d) any parcel of land not subject to the Land Transfer Act 2017.
	(3) For the purposes of subsection (2), an allotment that is—

	 (a) subject to the Land Transfer Act 2017 and is comprised in 1 record of title or for which 1 record of title could be issued under that Act; or (b) not subject to that Act and was acquired by its owner under 1 instrument of conveyance— shall be deemed to be a continuous area of land notwithstanding that part of it is physically separated from any other part by a road or in any other manner whatsoever, unless the division of the allotment into such parts has been allowed by a subdivision consent granted under this Act or by a subdivisional approval under any former enactment
	relating to the subdivision of land .
allotment shape factor	means the minimum shape requirement of an allotment to ensure the shape of the allotment is suitable for use.
amenity values	has the same meaning as in section 2 of the RMA (as set out in the box below) means those natural or physical qualities and characteristics of an area that contribute to people's appreciation of its pleasantness, aesthetic coherence, and cultural and recreational attributes.
amateur radio configuration	means the antennas, aerials (including rods, wires and tubes) and associated supporting structures which are owned and operated by licenced operators for personal use, and without pecuniary gain.
ancillary activity	means an activity that supports and is subsidiary to a primary activity.
aquifer	means a permeable geological formation, group of formations, or part of a formation, beneath the ground, capable of receiving, storing, transmitting and yielding water .
artificial shelter	means a man-made structure for the purpose of providing wind shelter and to mitigate spray drift.
audible bird	means gas guns and avian distress alarms used for the purposes of
scaring device	disturbing or scaring birds, and excludes firearms and vehicles used for that purpose.
bankfull channel width	means the distance across a river channel formed by the dominant channel-forming flow with a recurrence interval seldom outside a 1 to 2- year range (measured at a right angle to the channel flow).

Proposed Waitomo District Plan Part 1 – Introduction and General Provisions – Interpretation – Definitions 0 N S

bed	has the same meaning as in section 2 of the RMA (as set out in the box below) means—	S
	 (a) in relation to any river— (i) for the purposes of esplanade reserves, esplanade strips, and subdivision, the space of land which the waters of the river cover at its annual fullest flow without overtopping its banks: (ii) in all other cases, the space of land which the waters of the river cover at its fullest flow without overtopping its banks; and (b) in relation to any lake, except a lake controlled by artificial means,— (i) for the purposes of esplanade reserves, esplanade strips, and subdivision, the space of land which the waters of the lake cover at its annual highest level without exceeding its margin: (ii) in all other cases, the space of land which the waters of the lake cover at its highest level without exceeding its margin; and (c) in relation to any lake controlled by artificial means, the space of land which the waters of the lake cover at its highest level without exceeding its margin; and (c) in relation to any lake controlled by artificial means, the space of land which the waters of the lake cover at its highest level without exceeding its margin; and 	EFINITION
	operating level; and(d) in relation to the sea, the submarine areas covered by the internal waters and the territorial sea.	
beekeeping	means the keeping of bees in one or more hives and associated activities including extraction, processing, production of honey and bee products, packaging, storage and distribution.	-
benefit lot	means an additional subdivision right achieved as a result of the long term protection, through a subdivision consent process, of a specified site or feature in this plan.	-
best practicable option	 has the same meaning as in section 2 of the RMA (as set out in the box below) in relation to a discharge of a contaminant or an emission of noise, means the best method for preventing or minimising the adverse effects on the environment having regard, among other things, to— (a) the nature of the discharge or emission and the sensitivity of the receiving environment to adverse effects; and (b) the financial implications, and the effects on the environment, of that option when compared with other options; and (c) the current state of technical knowledge and the likelihood that the option can be successfully applied. 	
biodiversity compensation	means a conservation outcome that meets the requirements in Appendix 4 Biodiversity Offsetting Framework and results from actions that are intended to compensate for any more than minor residual adverse effects on indigenous biodiversity after all appropriate avoidance, minimisation,	

	remediation, and biodiversity offsetting measures have been sequentially applied.
biodiversity offset	 means a measurable conservation outcome that meets the requirements in Appendix 4 Biodiversity Offsetting Framework and results from actions that are intended to: (a) redress any more than minor residual adverse effects on indigenous biodiversity after all appropriate avoidance, minimisation, and remediation measures have been sequentially applied; and (b) achieve a net gain in type, amount, and condition of indigenous biodiversity compared to that lost.
boarding house	means a residential premises or a group of buildings that is occupied, or intended by the landlord to be occupied, by at least 6 tenants at any one time and contains boarding rooms and facilities for communal use by the tenants. For the avoidance of doubt, boarding houses offer rental tenancy for 28 days or more.
boarding or	means the overnight accommodation of dogs and cats for boarding or the
breeding kennels	breeding of three or more litters on any site but does not include the
or catteries	keeping of dogs as an activity ancillary to agriculture, pastoral and
	horticultural activities or for domestic purposes.
bore	 means any hole drilled or constructed in the ground that is used to: (a) investigate or monitor conditions below the ground surface; or (b) abstract gaseous or liquid substances from the ground; or (c) discharge gaseous or liquid substances into the ground; but it excludes test pits, trenches, soak holes and soakage pits.
boundary	means a subdivision that alters the existing boundaries between
adjustment	adjoining allotments, without altering the number of allotments.
building	 means a temporary or permanent movable or immovable physical construction that is: (a) partially or fully roofed; and (b) is fixed or located on or in land; but excludes: any motorised vehicle or other mode of transport that could be moved under its own power.
building	means the percentage of the net site area covered by the building
coverage	footprint.
building	means, in relation to building coverage , the total area of buildings at
footprint	ground floor level together with the area of any section of any of those
	buildings that extends out beyond the ground floor level limits of the
	building and overhangs the ground.
building platform	means an area of land identified on a plan for the purposes of identifying the future location of a building that is geotechnically sound, unaffected

	by any known hazards such as flooding, uncontrolled fill, unconsolidated material, past quarrying activities , visible natural springs, ponding areas, natural ground subsidence, sinkholes, land slip escarpments or wetland areas and is able to accommodate the development anticipated by the normitted activities identified for that zero.
	by the permitted activities identified for that zone.
camping ground	means any area of land used or intended to be used, for rent, donation, or otherwise for reward, for the purposes of occupying cabins, recreational vehicles, caravans or tents on a temporary basis, where parties enjoy the communal use of kitchen and ablution facilities, entrances, water supplies, or other premises and equipment.
cleanfill area	means an area used exclusively for the disposal of cleanfill material.
cleanfill material	 means virgin excavated natural materials including clay, gravel, sand, soil and rock that are free of: (a) combustible, putrescible, degradable or leachable components; (b) hazardous substances and materials; (c) products and materials derived from hazardous waste treatment, stabilisation or disposal practices; (d) medical and veterinary wastes, asbestos, and radioactive substances; (e) contaminated soil and other contaminated materials; and (f) liquid wastes.
co-housing	means more than two but no more than six self-contained household units
development	located on one site or holding which are either grouped together into one main building , joined as duplex dwellings or terraced dwellings or are detached private homes. Residents share common facilities which support daily life including but not limited to shared lounge/dining spaces, laundries, workshops, studios, gardens, BBQ areas, open space and play areas. Residents own and manage their co-housing community collectively.
coastal marine area	has the same meaning as in section 2 of the RMA (as set out in the box below)
	 means the foreshore, seabed, and coastal water, and air space above the water - (a) of which the seaward boundary is the outer limits of the territorial sea: (b) of which the landward boundary is the line of mean high water springs, except that where that line crosses a river, the landward boundary at that point shall be whichever is the lesser of - (i) 1 kilometre upstream from the mouth of the river; or (ii) The point upstream that is calculated by multiplying the width of the river mouth by 5.
coastal water	has the same meaning as in section 2 of the RMA (as set out in the box
	below) means seawater within the outer limits of the territorial sea and includes—

	(a) seawater with a substantial fresh water component; and
	(b) seawater in estuaries, fiords, inlets, harbours, or embayments.
coastal hazard	Means those areas identified on the Planning Maps as a:
area	(a) Coastal Erosion Hazard Area 1.
	(b) Coastal Erosion Hazard Area 2.
	(c) Coastal Flood Hazard Area.
	See also hazard area.
commercial	means any activity trading in goods, equipment or services. It includes any
activity	ancillary activity to the commercial activity (for example administrative
	or head offices).
commercial	means the use of motion picture, videotaping, sound recording or any type
filming	of moving image or audio recording equipment and includes the use of
	actors, models, sets or props. It does not include still photography.
commercial	Or commercial forest means exotic continuous-cover forestry
forestry	or plantation forestry .
commercial	means activities where the primary business is offering and/or supplying
services	for hire or sale services, rather than goods. It includes but is not limited
	to:
	(a) Offices for businesses, local and government agencies, not for profit
	organisations and community entities.
	(b) Professional services, lawyers, accountants, engineering, surveying,
	veterinary services and insurance services.
	(c) Financial services, banks, real estate and travel agents.
	(d) Personal services, hairdressing, beauty therapy, dry cleaning, laundries,
	funeral homes and shoe repairs.
	(e) Dog grooming.
	(f) Galleries which may include artist/artisan demonstrations, teaching and
	sales.
	(g) Postal services.
community	means the use of land and buildings for non-custodial services for safety,
corrections	welfare and community purposes, including probation, rehabilitation and
activity	reintegration services, assessments, reporting, workshops and
	programmes, administration, and a meeting point for community works
	groups.
community	means land and buildings used by members of the community for
facility	recreational, sporting, cultural, safety, health, welfare, or worship
	purposes. It includes provision for any ancillary activity that assists with
	the operation of the community facility.
community scale	means a renewable electricity activity intended to supply electricity to two
renewable	or more consumers, produced within one or more of the supplied sites , or
	within a third site . This includes associated lines or pipes for distribution of

electricity	energy to consumers. The activity may be connected to the distribution	
activities	network to transmit excess generated power.	
compact housing	means more than two but no more than six self-contained residential	
developments	units located units located on one site or holding where the design of	
	buildings , their layout, access and relationship to one another has been	
	planned in a comprehensive manner to achieve compatibility. The	
	household units may be duplex or terraced dwellings, apartments, town	
	houses or detached private homes, but excludes retirement villages .	
conservation	means any activity that involves the preservation and protection of	
activities	indigenous habitat, flora and fauna that fundamentally benefits indigenous	_
	biodiversity and safeguards it for future generations. For the avoidance of	
	doubt, the following activities are conservation activities:	
	(a) Conservation planting.	
	(b) The restoration of wetlands and the margins of water bodies.	
	(c) Stock exclusion.	
	(d) Research and monitoring.	
	(e) The establishment, maintenance or upgrading of public walking/cycle	
	tracks.	
	(f) Interpretive signs and directional signs.	
	(g) Any Department of Conservation or Fish and Game New Zealand	
	structure or building for visitor purposes or staff accommodation on	
	public conservation land.	
	(h) Underground structures on Crown land.	
	(i) Ecosystem protection, rehabilitation or restoration works including:	
	associated riparian fencing, including crossings and their approaches	
	that are consented, permitted or otherwise authorised by Waikato	
	Regional Council; and	
	• the management of nuisance plant or animal species adversely	
	impacting biodiversity values.	
construction sign	means a sign (s) erected on a site that relate to the construction work or	
j	development occurring on the site .	
contominont		
contaminant	has the same meaning as in section 2 of the RMA (as set out in the box below)	
	includes any substance (including gases, odorous compounds, liquids,	
	solids, and micro-organisms) or energy (excluding noise) or heat, that	
	either by itself or in combination with the same, similar, or other	
	substances, energy, or heat—	
	(a) when discharged into water , changes or is likely to change the	
	physical, chemical, or biological condition of water ; or	
	(b) when discharged onto or into land or into air, changes or is likely	
	to change the physical, chemical, or biological condition of the land	
	or air onto or into which it is discharged .	

contonainated	has the same meaning as in partian 2 of the DMA (as act out in the have	
contaminated land	has the same meaning as in section 2 of the RMA (as set out in the box below)	
lanu	means land that has a hazardous substance in or on it that—	
	(a) has significant adverse effects on the environment ; or	
	(b) is reasonably likely to have significant adverse effects on the environment .	
crop protection	means an open structure on which plants are grown.	
structures		
cultivation	means the alteration or disturbance of land (or any matter constituting the	_
	land including soil, clay, sand and rock) for the purpose of sowing,	_
	growing or harvesting of pasture or crops.	
digital signs	means electronic display systems designed to capture attention, primarily,	
	but not exclusively, for the purposes of advertising. The digital signage	
	display may be static or non-static.	
discharge	has the same meaning as in section 2 of the RMA (as set out in the box	
albenal ge	below)	
	includes emit, deposit, and allow to escape.	
drain	means any artificial watercourse designed, constructed, or used for the	
	drainage of surface or subsurface water , but excludes artificial	
	watercourses used for the conveyance of water for electricity generation,	
	irrigation, or water supply purposes.	
drinking water	means water intended to be used for human consumption; and includes	
	water intended to be used for food preparation, utensil washing, and oral	
	or other personal hygiene.	
duplex dwellings	means a residential building comprising two attached residential units -	
	either attached next to each other or above each other - on one allotment	
	(or on two Computer Freehold Registers where the allotment has	
	subsequently been subdivided). For the avoidance of doubt, residential	
	units physically connected by accessory buildings, such as garages, are	
	also be deemed to be attached.	
dust	means all non-combusted solid particulate matter that is suspended in the	
	air or has settled after being airborne. Dust may be derived from materials	
	including rock, sand, cement, fertiliser , coal, soil, paint, animal products	
	and wood.	
earthworks	means the alteration or disturbance of land , including by moving,	
	removing, placing, blading, cutting, contouring, filling or excavation of	
	earth (or any matter constituting the land including soil, clay, sand and	
	rock); but excludes gardening, cultivation , and disturbance of land for	
	the installation of fence posts.	

educational	means land or buildings used for teaching or training by childcare
facility	services, schools, or tertiary education services, including any ancillary
	activities.
effect	has the same meaning as in section 3 of the RMA (as set out in the box
	below)
	includes—
	(a) any positive or adverse effect; and
	(b) any temporary or permanent effect; and
	(c) any past, present, or future effect; and
	(d) any cumulative effect which arises over time or in combination with other effects—
	regardless of the scale, intensity, duration, or frequency of the effect, and also includes—
	(e) any potential effect of high probability; and
	(f) any potential effect of low probability which has a high potential
	impact.
emergency	means a temporary activity undertaken by any public organisation that
management	responds to and deals with emergencies when they occur. Includes training
activities	activities and the provision of assistance during a declaration of a state of
	local or national emergency or during a period of significant recovery and
	rebuilding.
emergency	means those facilities of organisations which are responsible for the safety
service facilities	and physical welfare of people or property in the community and includes
	fire, ambulance and police stations and ancillary accommodation and
	storage on the same site .
environment	has the same meaning as in section 2 of the RMA (as set out in the box
	below)
	includes—
	(a) ecosystems and their constituent parts, including people and
	communities; and
	(b) all natural and physical resources; and
	(c) amenity values; and
	(d) the social, economic, aesthetic, and cultural conditions which affect
	the matters stated in paragraphs (a) to (c) or which are affected by
	those matters.
environmental	Any action (work, services or restrictive covenants) to avoid, remedy or
compensation	mitigate adverse effects of activities on a relevant area, landscape or
• •	environment as compensation for the unavoided and unmitigated adverse
	effects of the activity for which approval is being sought.
esplanade	has the same meaning as in section 2 of the RMA (as set out in the box

Proposed Waitomo District Plan Part 1 – Introduction and General Provisions – Interpretation – Definitions ONS

DEFI

	and a manual within the manufact of the Decoming Act 1077
	means a reserve within the meaning of the Reserves Act 1977—
	(a) which is either—
	(i) a local purpose reserve within the meaning of section 23
	of that Act, if vested in the territorial authority under section
	239; or
	(ii) a reserve vested in the Crown or a regional council
	under section 237D; and
	(b) which is vested in the territorial authority , regional council, or the
	Crown for a purpose or purposes set out in section 229.
esplanade strip	has the same meaning as in section 2 of the RMA (as set out in the box
	below)
	means a strip of land created by the registration of an instrument in
	accordance with section 232 for a purpose or purposes set out in
	section 229.
exterior	means, in relation to any buildings and structures listed in <u>SCHED1 -</u>
maintenance and	Heritage Buildings and Structures, works that will restore or keep the
repair (of any	identified building or structure in a sound condition by using the same or
building or	similar materials and retaining the existing form, proportions, finishes and
structure listed	characteristics.
in <u>SCHED1 -</u>	
<u>Heritage</u>	
Buildings and	
<u>Structures</u>)	
exotic	or exotic continuous-cover forestry—
continuous-cover	(a) means a forest that is deliberately established for commercial purposes,
forest	being at least 1 ha of continuous forest cover of exotic forest species
	that has been planted and—
	(i) will not be harvested or replanted; or
	(ii) is intended to be used for low-intensity harvesting or replanted;
	and
	(iii) includes all associated forestry infrastructure; but
	(b) does not include—
	(i) a shelter belt of forest species, where the tree crown cover has,
	or is likely to have, an average width of less than 30 m; or
	(ii) forest species in urban areas; or
	(iii) nurseries and seed orchards; or
	(iv) trees grown for fruit or nuts; or
	(v) long-term ecological restoration planting of indigenous forest
	species; or
	(vi) willows and poplars space planted for soil conservation
	purposes

SZO

farm quarrying	 means an activity where sand or rock is extracted primarily for use on the source land holding and the material extracted must not exceed 1000 m³ per holding per calendar year. See also forestry quarrying, quarrying activities and quarry.
fence wrap	means PVC fabric, mesh or similar material that covers perimeter fencing on construction sites.
fertiliser	 means a substance or biological compound or mix of substances or biological compounds in solid or liquid form, that is described as, or held out to be suitable for, sustaining or increasing the growth, productivity or quality of soils, plants or, indirectly, animals through the application to plants or soil of any of the following: (a) nitrogen, phosphorus, potassium, sulphur, magnesium, calcium, chlorine, and sodium as major nutrients; or (b) manganese, iron, zinc, copper, boron, cobalt, molybdenum, iodine, and selenium as minor nutrients; or (c) fertiliser additives to facilitate the uptake and use of nutrients; or (d) non-nutrient attributes of the materials used in fertiliser. It does not include livestock effluent, human effluent, substances containing pathogens, or substances that are plant growth regulators that modify the physiological functions of plants.
forestry	has the same meaning as Resource Management (National Environmental
quarrying	 Standards for Commercial Forestry) Regulations 2017 (as set out below): (a) means the extraction of rock, sand, or gravel for the formation of forestry roads and construction of other commercial forestry infrastructure, including landings, river crossing approaches, abutments, and forestry tracks,— (i) within a commercial forest; or (ii) required for the operation of a commercial forest on adjacent land owned or managed by the owner of the commercial forest; and (b) includes the extraction of alluvial gravels outside the bed of a river, extraction of minerals from borrow pits, and the processing and stockpiling of material at the forest quarry site; but (c) does not include earthworks, mechanical land preparation, or gravel extraction from the bed of a river, lake, or other water body
fortified site	 means a site characterised by the erection of a look-out platform, tower or structure or the placement of a wall, barricade, fence, electrified fence, barbed wire fence or similar structure which precludes or inhibits access by the police or any authorised officer. It also includes the erection of monitoring system such as a surveillance camera to enable monitoring of persons beyond the boundaries of the site, provided that normal domestic residential security systems and historic fortified sites such as pa and redoubts are excluded.

SNO

fresh water	has the same meaning as in section 2 of the RMA (as set out in the box
	below)
	means all water except coastal water and geothermal water.
frost fan	means a machine used to move air around a horticultural or rural site for
	the purpose of drying fruit or mitigating the effects of frost.
functional need	means the need for a proposal or activity to traverse, locate or operate in a
	particular environment because the activity can only occur in that
	environment.
gas transmission	means pipelines for the transmission of natural gas at a gauge pressure
network	exceeding 2,000 kilopascals, including any associated above or below
	ground fitting, appurtenance, fixture or equipment required for the
	conveyance of the product in the pipeline and/or for its safe, efficient or
	effective operation.
green	means a natural or semi-natural area, feature or process, including
infrastructure	engineered systems that mimic natural processes, which are planned or
	managed to:
	(a) provide for aspects of ecosystem health or resilience, such as
	maintaining or improving the quality of water , air or soil, and habitats
	to promote biodiversity; and
	(b) provide services to people and communities, such as stormwater or
	flood management or climate change adaptation.
greenhouse	means a structure enclosed by glass or other transparent material and
	used for growing or protecting plants in a controlled environment but
	excludes artificial crop protection structures.
greywater	means liquid waste from domestic sources including sinks, basins, baths,
	showers and similar fixtures, but does not include sewage , or industrial
	and trade waste .
gross floor area	means the sum of the total area of all floors of a building or buildings
	(including any void area in each of those floors, such as service shafts,
	liftwells or stairwells), measured:
	(a) where there are exterior walls, from the exterior faces of those exterior
	walls;
	(b) where there are walls separating two buildings , from the centre lines
	of the walls separating the two buildings ;
	(c) where a wall or walls are lacking (for example, a mezzanine floor) and
	the edge of the floor is discernible, from the edge of the floor.
ground level	means:
ground level	means: (a) the actual finished surface level of the ground after the most recent
ground level	

	(b) if the ground level cannot be identified under paragraph (a), the
	existing surface level of the ground;
	(c) if, in any case under paragraph (a) or (b), a retaining wall or retaining
	structure is located on the boundary, the level on the exterior surface
	of the retaining wall or retaining structure where it intersects the boundary.
groundwater	means water occupying openings, cavities, or spaces in soils or rocks
	beneath the surface of the ground.
habitable room	means any room used for the purposes of teaching or used as a living
	room, dining room, sitting room, bedroom, office or other room specified in
	the Plan to be a similarly occupied room.
harvesting	means felling trees, extracting trees, thinning tree stems and extraction for
	sale or use (production thinning), processing trees into logs, or loading
	logs onto trucks for delivery to processing plants; but does not include
	milling activities or processing of timber or clearance of vegetation that is
	not commercial forest trees.
hazard area	Means those areas identified on the Planning Maps as a:
	(a) High Risk Flood Zone.
	(b) Building Platform Suitability Area A.
	(c) Building Platform Suitability Area B.
	(d) Building Platform Suitability Area C.
	See also coastal hazard area.
hazardous	has the same meaning as in section 2 of the RMA (as set out in the box
substance	below)
	includes, but is not limited to, any substance defined in section 2 of the
	Hazardous Substances and New Organisms Act 1996 as a hazardous
	substance. The Hazardous Substances and New Organisms Act 1996
	defines hazardous substances as meaning, unless expressly provided
	otherwise by regulations or an EPA notice, any substance—
	(a) with 1 or more of the following intrinsic properties:
	(i) explosiveness:
	(ii) flammability:
	(iii) a capacity to oxidise:
	(iv) corrosiveness:
	(v) toxicity (including chronic toxicity):
	(v) toxicity (including chronic toxicity): ecotoxicity, with or without bioaccumulation; or
	ecotoxicity, with or without bioaccumulation; or
	ecotoxicity, with or without bioaccumulation; or (b) which on contact with air or water (other than air or water where
	 ecotoxicity, with or without bioaccumulation; or (b) which on contact with air or water (other than air or water where the temperature or pressure has been artificially increased or
healthcare	 ecotoxicity, with or without bioaccumulation; or (b) which on contact with air or water (other than air or water where the temperature or pressure has been artificially increased or decreased) generates a substance with any 1 or more of the

1		
	(a) Medical practitioners.	
	(b) Dentists and dental technicians.	
	(c) Physiotherapists.	
	(d) Medical social workers and counsellors.	
	(e) Midwives.	
	(f) Paramedical practitioners.	
	(g) Alternative therapists.	
	(h) Providers of health and well-being services.	
	(i) Diagnostic laboratories.	
	This includes associated administrative activities and offices but excludes	
	hospitals.	
heavy	means a motor vehicle (other than a motorcar that is not used, kept, or	
commercial	available for the carriage of passengers for hire or reward) having a gross	
vehicle	laden weight exceeding 3500 kg.	
height	means the vertical distance between a specified reference point and the	
	highest part of any feature, structure or building above that point.	
height in relation	means the height of a structure , building or feature, relative to its	
to boundary	distance from either the boundary of:	
	(a) a site ; or	
	(b) another specified reference point.	
	Example:	
	Appropriate RECESSION PLANES Height in relation to site boundaries	
helipad	means a facility for helicopter movements that may include passenger	
	facilities, but does not include refuelling, servicing, storing of helicopters or	
	freight handling facilities. See also farm helipads .	
highly productive	has the same meaning as in Part 1 of the National Policy Statement for	
land	Highly Productive Land	
historic heritage	has the same meaning as in section 2 of the RMA (as set out in the box	
historic heritage		
historic heritage	has the same meaning as in section 2 of the RMA (as set out in the box	
historic heritage	has the same meaning as in section 2 of the RMA (as set out in the box below)	

	(i) archaeological:
	(ii) architectural:
	(iii) cultural:
	(iv) historic:
	(v) scientific:
	(vi) technological; and
	(b) includes—
	(i) historic sites, structures, places, and areas; and
	(ii) archaeological sites; and
	(iii) sites of significance to Māori, including wāhi tapu; and
	(iv) surroundings associated with the natural and physical
	resources.
holding	means a property or a collection of properties under common occupancy on
	which the activity is undertaken in conjunction with one another and are
	contiguous.
home business	means a commercial activity that is:
	(a) undertaken or operated by at least one resident of the site ; and
	(b) incidental to the use of the site for a residential activity.
hospital	means medical, surgical or psychiatric care facilities providing primarily in-
	patient care and includes healthcare facilities and services,
	administrative and commercial activities associated with these facilities.
	For the avoidance of doubt, hospital care may also be provided within a
	retirement village.
impermeable	means a surface that is not vegetated, does not infiltrate runoff, and
impermeable surfaces	
-	means a surface that is not vegetated, does not infiltrate runoff, and prevents or significantly slows the soakage of water into the ground. This includes:
-	prevents or significantly slows the soakage of water into the ground. This includes:
-	prevents or significantly slows the soakage of water into the ground. This includes: (a) roofs; and
-	prevents or significantly slows the soakage of water into the ground. This includes: (a) roofs; and

This includes: (a) roofs; and (b) paved areas including driveways and sealed/compacted metal parking areas; and (c) patios; and (d) sealed and compacted metal roads; and (e) layers engineered to be impervious such as highly-compacted soil. But excludes: (f) wooden decks with spacing between boards of 4mm or more, where water is allowed to drain through to a permeable surface below the deck; and (g) porous or permeable paving and living roofs; and

industrial	means an activity that manufactures, fabricates, processes, packages,
activity	distributes, repairs, stores, or disposes of materials (including raw,
	processed, or partly processed materials) or goods. It includes any
	ancillary activity to the industrial activity.
industrial and	means liquid waste, with or without matter in suspension, from the receipt
rade waste	manufacture or processing of materials as part of a commercial, industrial
	or trade process, but excludes sewage and greywater .
nfrastructure	has the same meaning as in section 2 of the RMA (as set out in the box
	<u>below)</u>
	(a) pipelines that distribute or transmit natural or manufactured gas,
	petroleum, biofuel, or geothermal energy:
	(b) a network for the purpose of telecommunication as defined
	in section 5 of the Telecommunications Act 2001:
	(c) a network for the purpose of radiocommunication as defined
	in section 2(1) of the Radiocommunications Act 1989:
	(d) facilities for the generation of electricity, lines used or intended to
	be used to convey electricity, and support structures for lines used
	or intended to be used to convey electricity, excluding facilities,
	lines, and support structures if a person—
	(i) uses them in connection with the generation of electricity for
	the person's use; and
	(ii) does not use them to generate any electricity for supply to
	any other person:
	(e) a water supply distribution system, including a system for irrigation:
	(f) a drainage or sewerage system:
	(g) structures for transport on land by cycleways, rail, roads, walkways,
	or any other means:
	(h) facilities for the loading or unloading of cargo or passengers
	transported on land by any means:
	(i) an airport as defined in section 2 of the Airport Authorities Act
	<u>1966:</u>
	(j) <u>a navigation installation as defined in section 2 of the Civil Aviation</u>
	<u>Act 1990:</u>
	(k) facilities for the loading or unloading of cargo or passengers carried
	by sea, including a port related commercial undertaking as defined
	in section 2(1) of the Port Companies Act 1988:
	(I) <u>anything described as a network utility operation in regulations</u>
	made for the purposes of the definition of network utility operator
	in section 166

hary luction buildings and involve growing fungi, or keeping or rearing livestock (excluding calf-rearing for a specified time period) or poultry. means a primary production activity involving the keeping or rearing of pigs that principally occurs outdoors which, by the nature of the activity, precludes the maintenance of pasture or ground cover. Excludes outdoor (extensive) pig farming. rpretive sign means a sign which contains information and/or images that explain the values associated with scheduled sites and features and may also include logos of companies or organisations that own or manage the site or have sponsored activities on the site. has the same meaning as the 'background sound level' in New Zealand Standard 6801:2008 Acoustics - Measurement of Environmental Sound. has the same meaning as 'time-average A-weighted sound pressure level' in New Zealand Standard 6801:2008 Acoustics - Measurement of Environmental Sound. max) has the same meaning as the 'maximum A-frequency weighted, F-time weighted sound pressure level' in New Zealand Standard 6801:2008 Acoustics - Measurement Of Environmental Sound. in has the same meaning as in section 2 of the RMA (as set out in the box below) means a body of fresh water which is entirely or nearly surrounded by land. i has the same meaning as in section 2 of the RMA (as set out in the box below) (a) includes land covered by water and the airspace above land; and (b) in a national environmental standard dealing with a territorial authority function under section 30 or a regional rule, does not include the bed of a lake or river; and (c) in a		I

(b) Hardware and banany improvement centres.		
		(b) Hardware and building improvement centres.

I	(c) Office furniture and electronics equipment and system suppliers.
	(d) Bedding, furniture and household appliance retailers.
	(e) Outdoor equipment suppliers.
L _{dn}	has the same meaning as the 'Day night level, or day-night average sound
	level' in New Zealand Standard 6801:2008 Acoustics – Measurement of
	Environmental Sound.
L _{peak}	has the same meaning as 'Peak sound pressure level' in New Zealand
	Standard 6801:2008 Acoustics – Measurement of Environmental Sound.
Maimai	means a small structure for game bird hunting.
maintenance (in	means, in relation to network utilities, any work or activity necessary to
relation to	continue the operation and/or functioning of existing infrastructure. It
network utilities)	includes the repair and/or replacement of an existing line, pipe, building,
	structure, road or other asset with another of the same or similar
	height, size, and scale within the same or similar position and for the
	same purpose. For the avoidance of doubt maintenance excludes
	upgrading, and the word 'similar' means 'almost identical'.
maintenance (in	means, in relation to any scheduled site, scheduled building or structure
elation to	listed in:
cultural and	(a) <u>SCHED1 – Heritage buildings and structures</u> ; and
historic heritage)	(b) <u>SCHED3 – Sites and Areas of Significance to Māori</u> .
	(c) <u>SCHED4 – Sites and Areas of Significance to Māori - wāhi tapu sites</u> .
	Buildings - works that will restore or keep the feature in a sound condition
	by using the same or similar materials and retaining the existing form,
	proportions, finishes and characteristics. It includes seismic strengthening
	that is not visible on the exterior of a building or item, or on an interior
	element, as well as seismic strengthening carried out internally that is not
	visible from outside the building or item.
	Other features - works that will restore or keep the feature in a sound
	condition including stabilisation of the asset by conservation treatments
	and land stabilising supervised by a suitably qualified and experienced
	archaeologist and in collaboration with mana whenua as required.
maintenance	means, in relation to any site listed in SCHED2 - significant archaeological
and/or minor	sites, the following activities:
modification (of	(a) Vegetation management except for commercial forestry ; and
a significant	(b) Fencing; and
archaeological	(c) Removal of a building or structure not identified in <u>SCHED2</u> ; and
site listed in	(d) Placement of approved or permitted signs ; and
SCHED2 –	(e) Any work required to stabilize a site ; and
-	
<u>Significant</u>	(f) Any maintenance associated with an existing track.
<u>Significant</u> Archaeological	(f) Any maintenance associated with an existing track.

managed care	means land or buildings in which residential accommodation, supervision,
acilities	assistance, care and/or support are provided by an agency for residents.
	For the avoidance of doubt, managed care facilities include women's
	refuges, night shelters, emergency housing and housing with associated
	rehabilitation activities, but excludes custodial facilities managed by the
	Department of Corrections.
1āori cultural	means traditional Māori uses, and includes customary food, textile, art, or
and customary	medicinal gathering, waka ama, Kingitanga events (Poukai) and activities
uses	that recognise and provide for the special relationship between mana
	whenua and places of customary importance, but does not include any
	building or structure.
narae complex	means an area of land set apart for the common use of mana whenua of
	Waitomo district, and includes a complex of buildings such as wharenui
	(meeting house), wharekai (dining hall), whārepaku (ablution block),
	and/or other accessory buildings generally associated with a marae or
	pā, but excludes papakāinga housing developments.
nineral	means a naturally occurring inorganic substance beneath or at the surface
	of the earth, whether or not under water ; and includes all metallic
	minerals, non-metallic minerals, fuel minerals, precious stones, industrial
	rocks and building stones, and a prescribed substance within the meaning
	of the Atomic Energy Act 1945.
nineral	means any activity (excluding blasting) undertaken for the purpose of
prospecting and	identifying land likely to contain exploitable mineral deposits or
exploration	occurrences and/or evaluating the feasibility of mining particular deposit
	or occurrence. It includes any drilling, dredging or excavations (whether
	surface or subsurface) that are reasonably necessary to determine the
	nature and size of a mineral deposit or occurrence - geological,
	geochemical and geophysical surveys, the taking of samples by hand or
	hand-held methods and aerial surveys.
ninor residential	means a self-contained residential unit that is ancillary to the principal
ınit	residential unit, and is held in common ownership with the principal
	residential unit on the same site.
linor utility	a structure used by a network utility operator or road controlling
structure	authority that is not more than 6 m^2 in area and has a maximum height of
	1.8 m
minor upgrade	means the improvement or increase in carrying capacity, operational
(in relation to	efficiency, security, or safety of an existing energy activity. This also
existing energy	includes structures and associated earthworks and site works where the
activities)	effects of that activity remain the same or similar in character, intensity
	and scale.

means the area measured either side of the centreline of the aboveground
national grid line as follows:
(a) 16m for the 110kV lines on pi poles.
(b) 32m for the 110 kV lines on towers.
(c) 37m for the 220 kV transmission lines.
means the area located 12 metres in any direction from the outer edge of
a national grid support structure (including where towers are replaced with tubular steel monopoles), and the area located 12 metres either side of the centreline of any overhead national grid line. The national grid
yard does not apply to underground cables or any transmission lines (or
sections of line) that are designated.
Centreline Single Concrete/ Wooden Pole
 National Grid Yard: 10m for single concrete/wooden pole lines, 12m for all other line types ** National Grid Subdivision Corridor: 14m, 32m, 37m or 39m depending on line voltage
Measurement of the setback distances from national grid transmission
lines must be undertaken from the centre line of the national grid
transmission line and the outer edge of any support structure . The centre
line at any point is a straight line between the centre points of the two
support structures at each end of the span.
has the same meaning as in section 2 of the RMA (as set out in the box
below)
Includes land , water , air, soil, minerals, and energy, all forms of plants and animals (whether native to New Zealand or introduced), and all structures.
has the same meaning as in section 2 of the RMA (as set out in the box
below)
means any atmospheric or earth or water related occurrence (including
earthquake, tsunami, erosion, volcanic and geothermal activity,
landslip, subsidence, sedimentation, wind, drought, fire, or flooding) the
action of which adversely affects or may adversely affect human life,
property, or other aspects of the environment .
means the sum of any gross floor area; and
(a) includes:
(4)
(i) both freehold and leased areas: and
(i) both freehold and leased areas; and(ii) any stock storage or preparation areas; but

	 void areas such as liftwells and stair wells, including landing areas;
	(ii) shared corridors and mall common spaces;
	(iii) entrances, lobbies and plant areas within a building ;
	(iv) open or roofed outdoor areas, and external balconies, decks,
	porches and terraces;
	(v) off street loading areas;
	(v) building service rooms;
	(vii) parking areas and basement areas used for parking, manoeuvring
	and access; and
	(viii) non-habitable floor spaces in rooftop structures .
net site area	means the total area of the site , but excludes:
	(a) any part of the site that provides legal access to another site ;
	(b) any part of a rear site that provides legal access to that site ;
	(c) any part of the site subject to a designation that may be taken or
	acquired under the Public Works Act 1981.
	GROSS SITE AREA NET SITE AREA
	Neighbour's site Your site Your site Your site
network utility	has the same meaning as in s166 of the RMA (as set out in the box below)
operator	means a person who—
	(a) undertakes or proposes to undertake the distribution or
	transmission by pipeline of natural or manufactured gas, petroleum,
	biofuel, or geothermal energy; or
	(b) operates or proposes to operate a network for the purpose of $-$ (i)
	telecommunication as defined in section 5 of the
	Telecommunications Act 2001; or
	(i) radio communication as defined in section 2(1) of the Radio
	Communications Act 1989; oris an electricity operator or
	electricity distributor as defined in section 2 of the Electricity Act
	1992 for the purpose of line function services as defined in that
	section; or
	(c) is an electricity operator or electricity distributor as defined in
	section 2 of the Electricity Act 1992 for the purpose of line function
	services as defined in that section; or
	(d) undertakes or proposes to undertake the distribution of water for
	(d) undertakes or proposes to undertake the distribution of water for supply (including irrigation); or

outdoor	means education in the outdoors using the natural environment and
ducation	direct experiences as part of a curriculum based learning programme.
ctivities	
outdoor	means an area of a site or holding where all pigs and piglets are
(extensive) pig	contained within a paddock(s) with groundcover maintained_in accordance
arming	with the relevant industry agreed good management practice guidelines.
outdoor living	means an area of open space for the use of the occupants of the
space	residential unit or units to which the space is allocated.
outdoor retail	means any retail activity or wholesale outlet where goods are displayed
activities	for direct sale to the public provided that 40% or more of the display area
	floor space is outdoors. It includes but is not limited to:
	(a) Motor vehicle, boat and marine, and farm machinery sales and service.
	(b) Hire services.
	(c) Farming and agriculture suppliers.
	(d) Trade suppliers.
	(e) Garden suppliers (including nurseries and garden centres).
outdoor service	means the area on a site for washing lines and storage of items such as
pace	rubbish bins.
utdoor storage	means an outdoor area for storage of building materials, equipment,
	waste materials, materials ensuing from an industrial process or materials
	required as part of an industrial, primary production , energy generation
	activity, commercial or retail activity , but excludes vehicles.
verlays,	means any area of land, site, feature, building or structure identified or
cheduled sites	listed in:
nd features	(a) SCHED1 – heritage buildings and structures.
	(b) SCHED2 – significant archaeological sites.
	(c) SCHED3 – sites and areas of significance to Māori.
	(d) SCHED4 – sites and areas of significance to Māori - wāhi tapu sites.
	(e) SCHED5 – sites and areas of significance to Māori - cultural alert layer.
	(f) SCHED6 – significant natural areas.
	(g) SCHED7 – outstanding natural landscapes.
	(h) SCHED8 – outstanding natural features.
	(i) SCHED9 – landscapes of high amenity value.
	(j) SCHED10 – areas of outstanding natural character.
	(k) SCHED11 – areas of high/very high natural character.(I) SCHED12 – karst overlay.
	(m)SCHED12 – kaist overlay. (m)SCHED13 – coastal environment overlay.
	See also scheduled sites and features/ scheduled sites or features
packing shed	means a building that is used for the initial processing, storage and
	packing of natural and unprocessed primary produce grown on the site or
	holding on which the building is located.

papakāinga	means a residential development comprising more than two but no more
nousing	than six individual papakāinga units which supports traditional Māori
levelopment	cultural living for a recognised mana whenua group residing in Waitomo
-	district.
apakāinga units	means residential accommodation which supports traditional Maori cultural
	living for a recognised mana whenua group residing in Waitomo district.
	For the avoidance of doubt, individual papakāinga units must contain a
	bedroom and separate bathroom including a toilet, sink and shower but are
	not required to contain a kitchen where communal kitchen facilities are
	available on the site .
oark facilities	means land, buildings or structures that facilitate the management, use
	and enjoyment of a public open space on Department of Conservation
	and/or Council-owned land:
	(a) Vehicle, machinery and equipment depots.
	(b) Storage sheds and accessory buildings.
	(c) Playground equipment and associated safety surfacing.
	(d) Public toilets, shelters and changing facilities.
	(e) Rotundas, amphitheaters and sound shells.
	(f) Access ways and car parks.
	(g) Stormwater management systems.
	(h) Skateparks.
	(i) Swimming pools.
	(j) Non-motorised cycle skills tracks.
	(k) Outdoor gym equipment.
	(I) Outdoor sports courts, sports fields and cricket nets.
oark furniture	means structures established for the use, convenience and amenity of the
	public in a public open space on Department of Conservation and/or
	Council-owned land, including:
	(a) Seating, picnic tables and barbeques.
	(b) Fountains, drinking fountains and water features.
	(c) Foot bridges and boardwalks.
	(d) Public art.
	(e) Gates, fences and pou .
	(f) Cycle parking structures .
	(g) Rubbish bins.
	(h) Lighting.
	(i) Shade sails.
	(j) Gardens, landscaping and planting.
	(k) Pathways, bridleways and cycleways.
peak particle	means, to the extent used for the assessment of the risk of structural
velocity	damage to a fixed structure , the instantaneous maximum velocity
	reached by a vibrating surface as it oscillates about its normal position.

plantation	Or plantation forest or means a forest deliberately established for
forestry	commercial purposes, being—
	(a) at least 1 ha of continuous forest cover of forest species that has been
	planted and has or will be harvested or replanted; and
	(b) includes all associated forestry infrastructure; but
	(c) does not include—
	(i) a shelter belt of forest species, where the tree crown cover has, or
	is likely to have, an average width of less than 30 m; or
	(ii) forest species in urban areas; or
	(iii) nurseries and seed orchards; or
	(iv) trees grown for fruit or nuts; or
	(v) long-term ecological restoration planting of forest species; or
	(vi) willows and poplars space planted for soil conservation purposes
primary	means:
production	(a) any aquaculture, agricultural, pastoral, horticultural, mining,
	quarrying or forestry activities; and
	(a) includes initial processing, as an ancillary activity , of commodities
	that result from the listed activities in a);
	(b) includes any land and buildings used for the production of the
	commodities from a) and used for the initial processing of the
	commodities in b); but
	(c) excludes further processing of those commodities into a different
	product.
quarry	means a location or area used for the permanent removal and extraction of
	aggregates (clay, silt, rock or sand). It includes the area of aggregate
	resource and surrounding land associated with the operation of a quarry
	and which is used for quarrying activities.
quarrying	means the extraction, processing (including crushing, screening, washing,
activities	and blending), transport, storage, sale and recycling of aggregates (clay,
	silt, rock, sand), the deposition of overburden material, rehabilitation,
	landscaping and cleanfilling of the quarry, and the use of land and
	landscaping and cleanfilling of the quarry , and the use of land and accessory buildings for offices, workshops and car parking areas
recreational	accessory buildings for offices, workshops and car parking areas associated with the operation of the quarry .
	accessory buildings for offices, workshops and car parking areas associated with the operation of the quarry. means non-commercial hunting where the hunter(s) pursue game for
recreational hunting	accessory buildings for offices, workshops and car parking areas associated with the operation of the quarry .
hunting	accessory buildings for offices, workshops and car parking areas associated with the operation of the quarry. means non-commercial hunting where the hunter(s) pursue game for recreation as a pastime, without gaining pecuniary reward from the hunting.
hunting regionally	accessory buildings for offices, workshops and car parking areas associated with the operation of the quarry.means non-commercial hunting where the hunter(s) pursue game for recreation as a pastime, without gaining pecuniary reward from the hunting.has the same meaning as in the Waikato Regional Policy Statement;
hunting regionally significant	accessory buildings for offices, workshops and car parking areas associated with the operation of the quarry.means non-commercial hunting where the hunter(s) pursue game for recreation as a pastime, without gaining pecuniary reward from the hunting.has the same meaning as in the Waikato Regional Policy Statement; means an economic activity based on the use of natural and physical
hunting regionally	accessory buildings for offices, workshops and car parking areas associated with the operation of the quarry.means non-commercial hunting where the hunter(s) pursue game for recreation as a pastime, without gaining pecuniary reward from the hunting.has the same meaning as in the Waikato Regional Policy Statement;

regionally	means:	$(\cap$
significant	(a) pipelines for the distribution or transmission of natural or	
infrastructure	manufactured gas or petroleum;	
	(b) infrastructure required to permit telecommunication as defined in the	
	Telecommunications Act 2001;	
	(c) radio apparatus as defined in section 2(1) of the Radio	
	Communications Act 1989;	
	(d) the national electricity grid, as defined by the Electricity Industry Act 2010;	
	(e) a network (as defined in the Electricity Industry Act 2010);	
	(f) infrastructure for the generation and/ or conveyance of electricity that	
	is fed into the national grid or a network (as defined in the Electricity Industry Act 2010);	
	(g) significant transport corridors as defined in Map 25 and 26 of the	
	Operative Waikato Regional Policy Statement;	
	(h) lifeline utilities, as defined in the Civil Defence and Emergency	
	Management Act 2002, and their associated essential infrastructure and services;	
	(i) municipal wastewater treatment plants, water supply treatment	
	plants and bulk water supply, wastewater conveyance and storage	
	systems, municipal supply dams and ancillary infrastructure;	
	(j) flood and drainage infrastructure managed by Waikato Regional	
	Council.	
renewable	means energy produced from solar, wind, hydro-electricity, geothermal,	
energy	biomass, tidal, wave, or ocean current sources.	
renewable	means activities to monitor and measure solar, wind, hydroelectricity or	
energy	geothermal energy sources for potential renewable electricity	
exploration	generation activities.	
activities		
renewable	means the construction, operation and maintenance of structures	
electricity	associated with renewable electricity generation. This includes small and	
generation	community scale renewable electricity activities and the system of	
activities	electricity conveyance to the distribution network and/or the national grid	
	and electricity storage technologies associated with renewable electricity.	
residential	means the use of land and building(s) for people's living accommodation.	

activity	
residential based	means the use of a residential unit, minor residential unit or its
visitor	accessory buildings for short stay accommodation for visitors (not
accommodation	exceeding 3 months) for a tariff whether or not the permanent
	residents/owners stay overnight on the site .

residential unit	means a building(s) or part of a building that is used for a residential
	activity exclusively by one household, and must include sleeping, cooking,
	bathing and toilet facilities.
restart view line	means the minimum distance, along the railway line(s) from the driver's
	eye position in a vehicle at the stop line position of the closest railway line,
	required to allow the driver to start from a stopped position and clear the
	railway line before a train arrives.
restoration (of	means, in relation to any buildings and structures listed in <u>SCHED1 -</u>
any building or	Heritage Buildings and Structures, that the heritage value of a place is
structure listed	recovered or revealed. It may involve the removal of additions which
in <u>SCHED1 -</u>	detract from the heritage value of the building or structure .
<u>Heritage</u>	
Buildings and	
<u>Structures</u>)	
retail activity	means an activity where the primary business is displaying and/or offering
	goods for sale or hire to the general public. For the avoidance of doubt,
	retail activities includes opticians, pharmacies and dispensaries.
retirement	means a managed comprehensive residential complex or facilities used to
village	provide residential accommodation for people who are retired and any
	spouses or partners of such people. It may also include any of the
	following for residents within the complex: recreation, leisure, supported
	residential care, welfare and medical facilities (inclusive of hospital care)
	and other non-residential activities.
risk assessment	means the overall process of risk identification, risk analysis and risk
lisk assessment	evaluation.
•	
river	has the same meaning as in section 2 of the RMA (as set out in the box
	below)
	means a continually or intermittently flowing body of fresh water ; and
	includes a stream and modified watercourse; but does not include any
	artificial watercourse (including an irrigation canal, water supply race,
	canal for the supply of water for electricity power generation, and farm
	drainage canal).
road	has the same meaning as in section 2 of the RMA (as set out in the box
	below)
	bas the same meaning as in castion 21E of the Level Covernment Act
	has the same meaning as in section 315 of the Local Government Act
	1974; and includes a motorway as defined in section 2(1) of the
	1974; and includes a motorway as defined in section 2(1) of the
	1974; and includes a motorway as defined in section 2(1) of the Government Roading Powers Act 1989
	1974; and includes a motorway as defined in section 2(1) of the Government Roading Powers Act 1989 Section 315 of the Local Government Act 1974 road definition:
	1974; and includes a motorway as defined in section 2(1) of the Government Roading Powers Act 1989 Section 315 of the Local Government Act 1974 road definition: road means the whole of any land which is within a district, and

road approach	 (b) immediately before the inclusion of any area in the district was a public highway within that area; or (c) is laid out by the council as a road or street after the commencement of this Part; or (d) is vested in the council for the purpose of a road as shown on a deposited survey plan; or (e) is vested in the council as a road or street pursuant to any other enactment; — and includes— (f) except where elsewhere provided in this Part, any access way or service lane which before the commencement of this Part was under the control of any council or is laid out or constructed by or vested in any council as an access way or service lane or is declared by the Minister of Works and Development as an access way or service lane after the commencement of this Part or is declared by the Minister of Lands as an access way or service lane on or after 1 April 1988: (g) every square or place intended for use of the public generally, and every bridge, culvert, drain, ford, gate, building, or other thing belonging thereto or lying upon the line or within the limits thereof;— but, except as provided in the Public Works Act 1981 or in any regulations under that Act, does not include a motorway within the meaning of that Act or the Government Roading Powers Act 1989 Section 2(1) of the Government Roading Powers Act 1989 motorway definition motorway— (a) means a motorway declared as such by the Governor-General in Council under section 138 of the Public Works Act 1981 or under section 71 of this Act; and (b) includes all bridges, drains, culverts, or other structures or works forming part of any motorway so declared; but (c) does not include any local road, access way, or service lane (or the supports of any such road, way, or lane) that crosses over or under a motorway on a different level 	DEFINITONS
road approach visibility line	means the minimum distance along the railway line(s) from the level crossing that either: a driver is able to see a train and stop before reaching the level crossing, or a driver continues at the approach speed and crosses the level crossing safely ahead of a previously unseen train or a train far enough away to be clearly not a collision threat.	
rural airstrips and farm helipads	means any area of land designed to be used for the landing, departure, movement or servicing of aircraft (including fixed-wing aeroplanes, helicopters and unmanned aerial vehicles), for the purpose of agricultural	-

	aviation activities. For clarity it does not include storing of aircraft or
	freight handling facilities or airstrips or helipads directly associated with
	commercial passenger transport.
rural-based	means land and buildings used for tertiary or secondary education training
education	of agricultural, pastoral and horticultural activities
activities	
rural industry	means an industry or business undertaken in a rural environment that
	directly supports, services, or is dependent on primary production .
scheduled sites	means any area of land, site, feature, building or structure identified or
and features/	listed in:
scheduled sites	(a) SCHED1 – Heritage buildings and structures.
or features	(b) SCHED2 – Significant archaeological sites.
	(c) SCHED3 – Sites and areas of significance to Māori.
	(d) SCHED4 – Sites and areas of significance to Māori - wāhi tapu sites.
	(e) SCHED5 – Sites and areas of significance to Māori - cultural alert layer
	(f) SCHED6 – Significant natural areas.
	(g) SCHED7 – outstanding natural landscapes.
	(b) SCHED8 – outstanding natural features.
	(i) SCHED9 – landscapes of high amenity value.
	(j) SCHED10 – areas of outstanding natural character.
	(k) SCHED11 – areas of high/very high natural character.
	See also overlays, scheduled sites and features.
significant	means mineral resources identified in accordance with UFD-M29.
mineral	
resources	
scientific	means the carrying out of measurements, samples, analyses, surveys,
purposes	investigations or inspections of natural resources including flora and fauna,
	earth, rocks and soil and water for the purpose of scientific research. Also
	includes archaeological investigations undertaken by a suitably qualified
	and experienced archaeologist. It excludes measurements, testing
	prospecting, exploration and associated structures where undertaken for
	commercial purposes or pecuniary gain.
sealed	means the use of a 'construction design standard' in terms of sub-base,
Scarca	base course and final pavement, including the application of the correct
	chip grade and chip type.
seasonal worker	means the use of land and buildings for the sole purpose of
accommodation	accommodating the short-term labour requirement associated with a
	horticultural activity.
seawall	means a wall constructed parallel to the coastline/mean high water springs

	processes. Construction materials can include timber, metal, rock or geotextiles.
second-hand	means a used building previously constructed and used, which is lifted
relocated	and relocated from one site to another, generally as a whole, or
building	sometimes split into sections.
sensitive activity	has the same meaning as a noise sensitive activity
setback	means the distance from a building or structure to the boundary of the
	site on which that building or structure occurs. Subject to the provisions
	of this plan, the distance of the setback is measured from the outer edge
	of the eaves of a building or structure to the road boundary or internal
	boundary, and includes:
	(a) A setback from a road boundary, which means that part of a site that
	has direct frontage to a road , being a line extending across the full
	width of the site parallel to the boundary adjoining the road,
	notwithstanding the presence of any segregation strip; and
	(b) A setback from an internal boundary, which means a line extending
	across the full width of the site parallel to the legal boundaries not
	fronting a road ; and
	(c) On rear sites all boundaries are internal boundaries; and
	(d) On a right of way/shared driveway the boundary is an internal boundary.
	rb = road boundary ib = internal boundary

	containers have a closed top and hinged doors with corrugated walls and
	are commonly manufactured from steel, high-density polyethylene or
	composite materials.
sign	means any device, character, graphic or electronic display, whether
	temporary or permanent, which:
	(a) is for the purposes of:
	(i) identification of or provision of information about any activity, property
	or structure or an aspect of public safety;
	(ii) providing directions; or
	(iii) promoting goods, services or events; and
	(b) is projected onto, or fixed or attached to, any structure or natural object; and
	(c) includes the frame, supporting device and any ancillary equipment
	whose function is to support the message or notice.
sign face area	means the area of a sign when viewed from any one direction, providing
	that the total area of all faces of a sign must not exceed twice that
	permitted for that type of sign .
significant	means mineral resources identified in accordance with UFD-M29.
mineral	
resources	
significant	means any facility which involves one or more of the following activities:
hazardous	(a) Manufacturing and associated storage of hazardous substances
facility	(including industries manufacturing agrochemicals, fertilisers,
-	acids/alkalis or paints);
	(b) Oil and gas exploration and extraction facilities;
	(c) Purpose built bulk storage facilities for the storage of hazardous
	substances (other than petrol, diesel or LPG) for wholesale or restricted
	commercial supply;
	(d) The above ground storage of more than 50,000 L of petrol; and
	(e) The aboveground storage of more than 100,000 L of diesel;
	(f) The storage/use of more than 6 tonnes of LPG;
	(g) Galvanising plants;
	(h) Electroplating and metal treatment facilities;
	(i) Tanneries;
	(j) Timber treatment;
	(k) Freezing works and rendering plants;
	(l) Wastewater treatment plants;
	(m) Metal smelting and refining (including battery refining or recycling);
	(n) Milk treatment plants;
	(o) Fibreglass manufacturing;
	(o) Fibreglass manufacturing;(p) Polymer foam manufacturing;

	(r) Landfills;
	(s) The storage and/or treatment of hazardous waste (including reuse and
	recycling facilities) or hazardous substances awaiting reuse, recycling,
	or treatment; and
	(t) Any facility deemed a Major Hazardous Facility under the Health and
	Safety at Work Major Hazardous Facilities Regulations 2016.
	For the avoidance of doubt, the following activities are not significant
	hazardous facilities':
	(i) The incidental use and storage of hazardous substances in minimal
	domestic scale quantities;
	(ii) Retail outlets for hazardous substances intended for domestic usage
	(eg supermarkets, hardware stores, and pharmacies);
	(iii) The incidental storage and use of agrichemicals, fertilisers and fuel for
	land based primary production activities;
	(iv) Pipelines used for the transfer of hazardous substances such as gas,
	oil, trade waste and sewage;
	(v) Fuel in motor vehicles, boats, airplanes and small engines;
	(vi) Temporary Military training activities ;
	(vii) The transport of hazardous substances ;
	(viii) Emergency management activities; and
	 (ix) The underground storage of petrol and diesel at service stations and underground storage of jet fuel at airports that is undertaken in accordance with HSNOCOP 44 Below Ground Stationary Container Systems for Petroleum – Design and Installation and HSNOCOP 45 Below Ground Stationary Containers Systems for Petroleum –
site	Operation.
Site	means:
	(a) an area of land comprised in a single record of title under the Land
	Transfer Act 2017; or
	(b) an area of land which comprises two or more adjoining legally defined allotments in such a way that the allotments cannot be dealt with separately without the prior consent of the council; or
	(c) the land comprised in a single allotment or balance area on an
	approved survey plan of subdivision for which a separate record of title under the Land Transfer Act 2017 could be issued without further consent of the Council; or
	(d) despite paragraphs (a) to (c), in the case of land subdivided under the Unit Titles Act 1972 or the Unit Titles Act 2010 or a cross lease system,
	is the whole of the land subject to the unit development or cross
	lease.
soil loading	lease. means the placement of soil or rock where it compacts or displaces the existing soil profile.
soil loading special audible	means the placement of soil or rock where it compacts or displaces the

	means a promises that is previded on the same site as the territory
staff	means a premises that is provided on the same site as the tourism
accommodation	facility it serves, which is occupied by staff working on-site in that same
associated with a	tourism facility.
tourism facility	
stormwater	means run-off that has been intercepted, channelled, diverted, intensified
	or accelerated by human modification of a land surface, or run-off from
	the surface of any structure , as a result of precipitation and includes any
	contaminants contained within.
structure	has the same meaning as in section 2 of the RMA (as set out in the box
	below)
	means any building, equipment, device, or other facility, made by
	people and which is fixed to land ; and includes any raft.
subdivision	has the same meaning as "subdivision of land " in section 218 of the RMA
	(as set out in the box below)
	means—
	(a) the division of an allotment —
	(i) by an application to the Registrar-General of Land for the issue
	of a separate certificate of title for any part of the allotment ; or
	(ii) by the disposition by way of sale or offer for sale of the fee
	simple to part of the allotment ; or
	(iii) by a lease of part of the allotment which, including renewals, is
	or could be for a term of more than 35 years; or
	(iv) by the grant of a company lease or cross lease in respect of any
	part of the allotment ; or
	(v) by the deposit of a unit plan, or an application to the Registrar-
	General of Land for the issue of a separate certificate of title for
	any part of a unit on a unit plan; or
	(b) an application to the Registrar-General of Land for the issue of a
	separate certificate of title in circumstances where the issue of that
	certificate of title is prohibited by section 226.
surroundings (of	means in the general rural zone only, the land immediately surrounding
any building or	buildings and structures listed in SCHED1 - Heritage Buildings and
structure listed	Structures, including any closely associated buildings , gardens,
in <u>SCHED1 -</u>	monuments and structures , but excluding any immediately adjacent
Heritage	open fields.
Buildings and	
<u>Structures</u>)	
sustainable	means the stewardship and use of forests and forest lands in a way, and at
forest	a rate, that maintains their biodiversity, productivity, regeneration
management	capacity, vitality and their potential to fulfil, now and in the future, relevant
	ecological, economic and social functions, at local, national, and global
	levels, and that does not cause damage to other ecosystems.

sustainable	has the same meaning as in section 5 of the RMA (as set out in the box
management	below)
	 means managing the use, development, and protection of natural and physical resources in a way, or at a rate, which enables people and communities to provide for their social, economic, and cultural wellbeing and for their health and safety while— (a) sustaining the potential of natural and physical resources (excluding minerals) to meet the reasonably foreseeable needs of future generations; and (b) safeguarding the life-supporting capacity of air, water, soil, and ecosystems; and (c) avoiding, remedying, or mitigating any adverse effects of activities on the environment.
takeaway food	means any takeaway premises where on-demand meals are offered for
outlets with a	sale in a manner where the customer can remain in their vehicle.
drive through	
facility	
temporary event	means a non-commercial or commercial activity that has a start date
	such as a fundraising event, and involves people engaged in recreational, sporting, leisure, cultural, musical, ceremonies, celebrations, meetings or similar pursuits either as participants or spectators and includes sports events, parades, fundraising, carnivals, galas, concerts, exhibitions and markets. It does not include tangi, funerals, Māori cultural and customary uses, political or civic meetings.
temporary	means a temporary activity undertaken for the training of any component
military training	of the New Zealand Defence Force (including with allied forces) for any
activity	defence purpose. Defence purposes are those purposes for which a defence force may be raised and maintained under section 5 of the Defence Act 1990 which are:
	(a) the defence of New Zealand, and of any area for the defence of which New Zealand is responsible under any Act:
	New Zealand is responsible under any Act: (b) the protection of the interests of New Zealand, whether in New Zealand
	New Zealand is responsible under any Act:(b) the protection of the interests of New Zealand, whether in New Zealand or elsewhere:(c) the contribution of forces under collective security treaties,
	 New Zealand is responsible under any Act: (b) the protection of the interests of New Zealand, whether in New Zealand or elsewhere: (c) the contribution of forces under collective security treaties, agreements, or arrangements: (d) the contribution of forces to, or for any of the purposes of, the United Nations, or in association with other organisations or States and in

territorial	has the same meaning as in section 5 of the Local Government Act 2002
authority	(as set out in the box below)
	means a city council or a district council named in Part 2 of Schedule 2.
tiny house	means self-contained residential accommodation which is a maximum of
	20 m ² gross floor area at ground floor level, and is:
	(a) Built on a chassis, on wheels and can be towed by a vehicle, but is not motorised itself; and
	(b) Not intended to be permanently located on any site or attached to the ground on a permanent foundation.
	For the avoidance of doubt a tiny house is not a second-hand relocated
	building , a mobile home, a house bus, a recreational vehicle (RV), a
	trailer type RV, a caravan or a pop-top trailer.
	Note: Where building work is carried out (for example to join two tiny
	houses together by a walkway or create a permanent deck) or where
	kitchen and bathroom plumbing fittings need to be connected to reticulated
	water or wastewater systems or septic tank systems, the tiny house
	becomes a building .
tiny house	means more than two but no more than six tiny houses on a site or
development	holding.
tourism facilities	means land and/or buildings used for the commercial organisation and
	operation of activities that cater to tourists including those relating to
	natural features and attractions, agritourism and tourist establishments

	(e.g. information centres and visitor centres), but excludes visitor
	accommodation.
own concept	means a town concept plan prepared and formally adopted by Waitomo
plan	District Council.
rade suppliers	means a business engaging in sales to trade customers whose products
	wholly consists of one or more of the following: automotive or marine
	supplies, building supplies, catering equipment, farming and agricultural
	supplies, garden and outdoor equipment, hire services or industrial
	supplies.
transmission	means those activities that are particularly sensitive to national electricity
sensitive	and gas transmission activities, including but not limited to:
activity(ies)	
	(a) residential units and minor residential units, boarding houses, co-
	housing developments, compact housing developments,
	retirement villages, visitor accommodation, papakāinga units and
	papakāinga housing developments, residential based visitor
	accommodation, managed care facilities and other buildings used
	for residential activities ;
	(b) Camping grounds;
	(c) Tiny houses and tiny house developments;
	(d) Marae complex;
	(e) Community facilities including museums and libraries;
	(f) Educational facilities;
	(g) Hospitals and healthcare facilities;
	(h) Tourism facilities, outdoor education activities and recreational
	hunting; (i) Leisure and entertainment facilities, including shopping malls, indoor
	fitness centres, theatres and cinemas;
	(j) Prisons;
	(k) Any building storing hazardous substances , hazardous facilities,
	significant hazardous facilities and infrastructure (excluding those
	that are ancillary to national electricity and gas transmission activities);
	and
	(I) Other venues or areas where large numbers of people gather or
	intermittently gather.
transport	means the whole corridor that provides for carriageway, berms and any
corridor	adjoining pedestrian footpaths, walkways and cycleways , landscaping
	and lighting, and includes roads and access segregation strips.

	Land use environment
	Land use environment
	Berm On-street parking, passenger transport (stops), footpath, off-road cycle (paths, street lighting, street trees Legal road width
transport	means the combined network of:
network	(a) Existing and future transport corridors.
	(b) Private roads and ways, access ways , service lanes, pedestrian, cycle
	and passenger transport lanes or routes (including walkways and
	cycleways) both within and outside the transport corridor.
	(c) Rail routes that provide for the movement of people and goods to, from
	and through the district.
	It includes all of the ancillary support transport infrastructure and activities,
	and vehicle access points . It also includes those facilities in addition to
	transport infrastructure that support the use of the transport system, as well
	as (but not limited to) end-of-journey facilities and travel management
	plans.
vehicle access	means the formed or otherwise constructed vehicle entry/exit crossing
point	from the carriageway of any road up to and including that portion of the
	road boundary of the site across which a vehicle entry or exit point is
	permitted by this plan. It includes any culvert, bridge or kerbing.
vehicle	means a single journey to or from a particular site by a person or persons
movements	in a motor vehicle. Entering a site equals one vehicle movement and
movements	exiting a site equals one vehicle movement, i.e. one vehicle to and from
	extend a site equals one vehicle movement, i.e. one vehicle to and itom

	a site equals two vehicle movements. Vehicle trip has the same meaning as vehicle movement.
visitor	means land and/or buildings used for accommodating visitors, subject to
accommodation	a tariff being paid, and includes any ancillary activities, but excludes
	camping grounds.
walkways and	means publicly accessible formed pathways and includes mountain bike
cycleways	tracks, boardwalks, shared paths, footpaths and cycle paths.
warehouse	means any building or land, where materials, articles or goods are stored
	pending sale or removal.
wastewater	means any combination of two or more the following wastes: sewage ,
	greywater or industrial and trade waste.
water	has the same meaning as in section 2 of the RMA (as set out in the box
	below)
	(a) means water in all its physical forms whether flowing or not and
	whether over or under the ground:
	(b) includes fresh water, coastal water , and geothermal water:
	(c) does not include water in any form while in any pipe, tank, or
	cistern.
waterbody	has the same meaning as in section 2 of the RMA (as set out in the box
	below)
	means fresh water or geothermal water in a river, lake, stream,
	pond, wetland, or aquifer, or any part thereof, that is not located
	within the coastal marine area .
wetland	has the same meaning as in section 2 of the RMA (as set out in the box
	below)
	includes permanently or intermittently wet areas, shallow water, and
	land water margins that support a natural ecosystem of plants and
	animals that are adapted to wet conditions.
woolstore	means a building used by wool buyers, merchants and exporters to
	source, test, store, handle, sell and distribute wool.
