

Waitomo District Council will be delivering a replacement **GREEN BIN** to properties currently receiving the **Kerbside Recycling Collection Service.**

It has been seven years since we first issued the green bins, and they now need to be replaced. The old bins are made from type 2 plastic and will be recycled.

Old green bins will be collected and replaced as part of the normal kerbside service, **during the month of July 2017.**

Please place your old green bin on the kerbside by 8am on the day of collection. Piopio, Mokau/Awakino, and Waitomo's collection day is Tuesday. Te Kuiti's collection day is Friday.

Recycle and save on your rubbish disposal costs:

- Plastic containers, bottles and trays - types 1 and 2 only (rinsed and squashed).
- Aluminium and tin cans (rinsed and squashed).
- Glass bottles and jars (rinsed clean).
- Paper, newspaper and cardboard. Flatten cardboard, stack paper and place next to your green bin.

Creating a better future with vibrant communities and thriving business.
