I WISH TO SPEAK TO COUNCIL ABOUT MY SUBMISSION **I DO NOT WISH TO SPEAK IN SUPPORT OF MY SUBMISSION**

PLEASE REMOVE THESE SUBMISSION PAGES (25-28) AND RETURN TO WDC BY 5PM, FRIDAY MAY 4TH 2018.
 FREEPOST 112498
 WAITOMO DISTRICT COUNCIL
 QUEEN STREET, PO BOX 404, TE KUITI 3941

INDICATE WHICH OPTION YOU SUPPORT FOR OUR SIX PROPOSALS:

1 SAFE COMMUNITIES

Council proposes the local establishment of an accredited Safe Community programme using the Safe Communities model. Refer page 9.

Which option do you choose?

OPTION 1 (PREFERRED OPTION)
 Council should pursue Safe Communities accreditation to support the development of our communities. **OPTION 1**

OPTION 2:
 Council should not pursue the safe communities accreditation. **OPTION 2**

OPTION 3:
 Council should make the Safe Communities initiative an even greater priority and allocate more funding towards it? **OPTION 3**

MY COMMENT:
 when I shifted here 20yrs⁺ ago I was not safe - even in my home (lots of police call-outs)! Things have improved but there is a long way to go.
 If Waikeria Prison expands significantly there is risk that more criminal families may move into the area (as happened to Te Awamutu years ago when a womens facility was opened) with a possible detrimental effect to the "over-all" culture on the streets & especially youth.
 If we promote 'Community Safety' enthusiastically & offer a community model that favours safety this help keep long-term locals safe, and give good role modelling to promote personal change for those more anti-social and anti-establishment.

PLEASE NOTE: Submissions received on the 2018-28 Long Term Plan, will be made publicly available as required by the Local Government Act 2002 and subject to the Local Government Official Information and Meetings Act 1987. This will include name and address of submitters.

SUBMISSION FORM

2 NORTH KING COUNTRY SPORTS AND RECREATION CENTRE

The Game on Charitable Trust (GoCT) proposes the development of the North King Country Indoor Sport and Recreation Centre (the Sports Centre) in Te Kuiti. Council has been invited to **provide funding** for that development. Refer pages 10-11.

Which option do you choose?

OPTION 1 (PREFERRED OPTION)

Council should provide a maximum capital funding grant to the GoCT of **\$1.5 million**, with **\$1 million** provided in **2018/19 year** and \$500,000 in 2019/20 under the proviso that if the GoCT are able to source additional funding from other benefactors then Council would contribute less?

OPTION 1

OPTION 2:

Council should not provide any capital funding for the sports centre.

OPTION 2

4 RATES REMISSION POLICY

We are proposing to establish a new remission category that provides rates remission of up to 50% for one year to new businesses or new developments established within the past 12 months. Council's objective in establishing this remission category is to promote employment and economic development within the District.

We are also proposing a new remission category that provides relief to properties that have been detrimentally affected by erosion, subsidence, submersion, earthquake or other calamities. The objective of establishing this remission category is to assist ratepayers affected by events outside of their control and as the consequence of a natural calamity. Refer page 13.

Council should introduce the new categories for remission into the Rates Remission Policy.

Yes No

I think the new business remission should be scaled to the size of the business. That is: a small business gets a higher remission than a multi-national one. Also: remission proviso - the business must employ at least some new staff from locals.

3 ECONOMIC DEVELOPMENT

Council plans to **participate and become a member of the proposed** Waikato Regional Economic Development Agency (WREDA), and the **South Waikato economic initiative** to develop a strategy and action plan for the economic development of the South Waikato sub-region to get the best possible return for our investment and to take advantage of the opportunity as part of a bigger collective. Refer page 12.

Do you support Council's proposal to participate in the WREDA and the South Waikato economic initiative? (our preferred option)

Yes No

MY COMMENT:

with Govt's new emphasis on Regional Development this plan of councils to join WREDA is vital. There hasn't been an opportunity like this for a long while. Hopefully economic initiative can be set up so our small towns are cooperating economically together rather than competing against each other.

I would like to see a greater input into Regional equalness with city urban. eg: why do Aucklanders get cheaper power than us when every family / business need is ~~to~~ equal. But then, why do we pay top rates for fruit/meat etc when the regions have produced it, but Aucklanders buy it cheaper. Regions must demand a fairer deal. If we wish to repopulate and develop our regions the cost-of-living must be equitable to large cities to attract people here.

5 PUBLIC TOILETS AT MOKAU AND WAITOMO VILLAGE

Council is proposing to upgrade the Mokau toilets to more appropriately meet user needs in the 2018/19 financial year (first year of the Long Term Plan).

Council is proposing to invest in public toilet facility at Waitomo Village in 2019/20. However, this will be subject to land ownership being vested to Council for such a facility.

The estimated cost of the two facilities will require an investment of approximately \$320,000 each. Refer page 14.

Which option do you choose?

OPTION 1 (PREFERRED OPTION)

Council should apply for external funding from the Tourism Infrastructure Fund (TIF) to cover 50% of the cost of these facilities.

If funding is obtained then proceed with the upgrade at Mokau in 2018/19 and new toilets at Waitomo Village in 2019/20.

OPTION 1

OPTION 2:

Council should not proceed with providing the new and upgraded facilities **even if the external funding is obtained.**

OPTION 2

MY COMMENT:

- Please include a family toilet with baby/infant changing facilities at each site.
- An outdoor tap for washing feet + footwear (sand at Mokau / mud at Waitomo) would be useful too.
- Should be open 24/7 to encourage good public sanitation so please provide good lighting + cameras so people feel safe to use the facilities + not the side of road etc.

NEED MORE SPACE? Please attach additional paper with your name, phone number and page number on each sheet.

THIS SUBMISSION FORM CAN BE COMPLETED ONLINE AT: www.waitomo.govt.nz/shapeWaitomo

6 FUNDING WATER AND SEWERAGE SERVICES

- Council is of the view that the entire District benefits from adequate and environmentally sound Water and Wastewater services and
- these services should cost the same in each community. Refer pages 15-16.

Which option do you choose?

OPTION 1 (PREFERRED OPTION)

Council should implement the 'same service same rate' proposal phased in over four years (for water) and include 10% district benefit rate for all rating units across the district.

Under this option the water and sewerage assistance subsidies currently paid by all rating units in the district would be replaced with the district benefit allocation and the Piopio Wider Benefit Rating Area (PWBRA) sewerage rate would be removed.

OPTION 1

OPTION 2:

Council should stay with the current funding system which is - you pay for water and sewerage based on where you live and all rating units in the district pay an assistance rate for these services in smaller communities and PWBRA. Sewerage rate remains.

OPTION 2

MY COMMENT:

- On the Rate examples page 21, why do Dry Stock Rural have to pay \$22 for the Marokopa Community centre? but no one else does?
- And why are dairy farmers clobbered so badly on ~~etc~~ just about everything? Are they easy targets? Or is it the intensity of their activity eg: stock trucks milk tankers etc.
