I wish to speak to Council about my submission
No

The future of Waitomo District Landfill

I agree with Option 2 - Disposing waste outside the district

My comments on the Landfill

The landfill will be full in the near future. The cliff face is a hazard that will add to the cost of any future capacity increase development. The landfill also generates a lot of leachate that can influence the sewage treatment plant operation. It is also a hazard in terms of fires that can start which are difficult to extinguish and that add to the pollution. It also generates gasses that have resulted in poor living quality for residents downwind.

The future of the Council Owned seawall at Mōkau

Option B - Rate Option 4 : Not replace the Mōkau seawall with General Rate /UAGC District Wide

My comments on the Mōkau Seawall

It is not certain if any resource consent will be granted for the building of the seawall. It is my opinion to let the sea claim back the spit.

Reduce the District Wide Benefit Rate for water and wastewater

Option 1: Reduce the District Wide Benefit Rates (Council's Preferred Option)

My comments on reducing the District Wide Benefit Rates for water and wastewater

It should be User Pays.

Do you agree with our amendments to the Rates Remission Policy?

Yes

Feedback

We should assist those that cannot afford the basic services to ease the burden.

Do you agree with our amendments to the Revenue and Financing Policy?

Yes

Any feedback?

N/A

Would you like to make any further comments?
