

WDC Notices

WATER RESTRICTIONS FOR TE KUITI, BENNEYDALE AND PIOPIO

**From 19th March 2013, residents of Te Kuiti,
Benneydale and Piopio townships are on
Water Alert Level 2 until further notice.**

WATER ALERT LEVEL 2 - RESTRICTIONS

Total ban on domestic sprinklers - only hand held hosing permitted. Restrictions apply to all urban, rural, non-residential and commercial properties.

The current state of drought combined with the current level of water consumption means Council must introduce restrictions to avoid the risk of the loss of the water supply. Council asks that residents and visitors comply with the restrictions and seeks support in the adoption of water conservation measures both in and around homes.

Any ongoing breach of the restriction will result in a monitored water meter being installed. Any further breaches will not only result in a water restrictor being installed which will limit the amount of water that can be taken from the supply, but the offender will also be prosecuted under Council's Water Supply Bylaw.
