Council's Overall Performance	53
Customer Service	55
Area Profiles	57
Demographics	62
Questionnaire	64

Waitomo District Council (WDC) is responsible for the provision of services and the management of facilities and assets in the Waitomo district.

In 2019, WDC commissioned Versus Research to conduct its annual Residents' Survey.

WDC is committed to delivering a high level of service to the community. One of the ways we measure success is by reporting against the Levels of Service and Key Performance Indicators for our Groups of Activities, which are set by our Long Term Plan 2018-2028.

The aim of the survey is to gauge residents opinions of the services and facilities delivered by WDC, measure resident satisfaction against our performance targets for the 2018/19 financial year, and to identify priorities for improvement in our services over the long term.

Survey results are included in our Annual Report.

The final sample size (total number of residents interviewed) is n=504.

Age and gender weighting has been applied to the final data set to ensure specific demographic groups are not under or over represented.

A summary of the key results is given below.

ROADS AND FOOTPATHS

In 2019, three-quarters of residents (75%) are satisfied with the overall condition of sealed roads in the district, while 68% of residents are satisfied with the overall condition of unsealed roads in the district. Eighty-nine per cent of residents are satisfied with the standard of pedestrian crossings, a 4% increase compared to last year. Following this, 85% of residents are satisfied that the standard of public footpaths are safe and accessible, a significant increase compared with last year (cf. 2018, 76%).

The majority of residents are satisfied that road signs and markings are visible and assist road safety, a significant increase compared with last year (92% cf. 2018, 87%).

ROADS AND FOOTPATHS	2018/2019 TARGET	2014 SATIS- FIED	2015 SATIS- FIED	2016 SATIS- FIED	2017 SATIS- FIED	2018 SATIS- FIED	2019 SATIS- FIED	+/- Y.O.Y.	+/- DIFF. FROM TAR- GET
Overall condition of sealed roads	No performance target	-	-	84%	84%	76%	75%	-1%	-

Road signs and markings are visable and assist with safety	No performance target	-	-	92%	92%	87%	92%	+5%	-

WATER SUPPLY AND SEWERAGE - TREATMENT AND DISPOSAL

Half of residents are connected to WDC's town water supply (50%), and a further 50% use a private water

More than two-thirds of residents (68%) who are water supply users are satisfied with WDC's water supply services, a significant decrease compared with last year (cf. 2018, 83%).

Forty-four per cent of residents are connected to WDC's sewerage system in 2019. A further 56% of residents have a septic tank.

The majority of residents (93%) are satisfied with the sewerage treatment service in the community.

Provision of sewerage service	No performance target	-	-	96%	94%	93%	93%	0%	-

RUBBISH AND RECYCLING

Less than half of residents have used the kerbside refuse collection service in the last 12 months (47% cf. 2018, 62%). Following this, 42% of residents have used the rural waste transfer stations, 47% have used a green bin, and 49% have used a landfill facility.

With regards to the refuse and reycling facilities at the Waitomo District Landfill and rural transfer stations, 95% of residents are satisfied with the safety of the facilities, which exceeds the ≥85% performance target by 10%. Ninety-four per cent of residents are satisfied with the provision of waste management facilities, which exceeds the >80% performance target by 14%.

RUBBISH AND RECYCLING	2018/2019 TARGET	2014 SATIS- FIED	2015 SATIS- FIED	2016 SATIS- FIED	2017 SATIS- FIED	2018 SATIS- FIED	2019 SATIS- FIED	+/- Y.O.Y.	+/- DIFF. FROM TAR- GET
Safety of the facilities (landfill and district transfer stations)	≥ 85% performance target	-	-	-	-	-	95%	-	+10%
Provision of waste management facilities	>80% performance target	-	-	-	-	-	94%	-	+14%

In a new question for 2019, residents were asked how they reduce waste at home. Sixty-two per cent of residents recycle plastic, glass, tin and paper all of the time, while 52% compost food waste all of the time. At a lower level, 19% of residents choose products with packaging that can be recycled, 16% choose products with little or no packaging, 15% use long life products rather than disposables, and 7% of residents purchase second-hand goods all of the time.

COMMUNITY SERVICES

Ninety per cent of residents are satisfied with the quality of parks and reserves in the district, a significant increase compared with last year (cf. 2018, 83%), and exceeds the ≥80% performance target by 10%.

The majority of residents (95%) are satisfied with the quality of library facilities at Waitomo District Library. This is a significant increase compared with last year (cf. 2018, 89%), and exceeds the ≥85% performance target by 10%.

Ninety-three per cent of residents are satisfied with the quality of the pool facilties (District Aquatic Centre) and services. This is a significant increase compared with last year (cf. 2018, 85%), and exceeds the ≥ 80% performance target by 13%.

In a new question for 2019, 94% of residents are satisfied with the toilet and changing facilities at the District Aquatic Centre.

The majority of residents (96%) are satisfied with the quality of the Les Munro Centre (arts and culture facilities). This is a 2% increase compared with last year, and exceeds the ≥ 80% performance target by 16%.

Ninety-three per cent of residents are satisfied with the quality of public amenities (public toilets and cemeteries). This is a significant increase compared with last year (cf. 2018, 86%). This exceeds the ≥85% performance target by 8%.

COUNCIL-PROVIDED SERVICES

With regards to WDC services used in the last 12 months, 91% of residents stated they had not used any. Of those who had, 8% used alcohol and liquor licensing services, 4% used food premise licensing services, while 3% had used noise control in the past 12 months.

Eighty-nine per cent of residents are satisfied with the provision of an effective Environmental Health Service for the community. This exceeds the >85% performance target by 4%.

Sixty-nine per cent of residents are satisfied with the provision of an effective Building Control Service for the community, which does not reach the performance target of 75% resident satisfaction.

Eighty-one per cent of residents are satisfied with the provision of an effective Animal Control Service for the community, a significant increase compared with last year (cf. 2018, 70%), and it exceeds the ≥ 75% performance target by 6%.

Provision of effective Animal Control Service	≥ 75% performance target	46%	78%	78%	78%	70%	81%	+9%	+6%

EMERGENCY MANAGEMENT

In a new question for 2019, less than half of residents (42%) have an emergency plan in place. However, the majority of residents (96%) are prepared to survive unaided (without outside assistance) in the event of a natural disaster for at least three days. This is a significant increase compared with last year (cf. 2018, 91%), and exceeds the \geq 75% performance target by 21%.

In a new question for 2019, residents were asked about being prepared for a natural disaster, and what they have in their emergency kit. More than three-quarters (78%) have dried or tinned food to last their household at least three days, 67% have a first aid kit and instruction book, while 42% have important personal documents, and 33% have a battery powered radio that works.

In the event of a natural disaster, 61% of residents would expect to recieve an emergency alert via a mobile phone app. A further 61% would expect to hear from their friends and family, a significant increase compared with last year (cf. 2018, 46%), and 60% from their neighbours, also a significant increase (cf. 2018, 54%). This year, there is a significant increase in the number of residents who would expect to hear emergency messages on the television (54%, cf. 2018, 38%).

Emergency plan in place	No performance target	-	-	-	-	-	42%	-	-

COUNCIL COMMUNICATIONS

With regards to the usefulness and effectiveness of WDC's communications, 90% of residents are satisfied, which meets the 90% performance target.

In a series of new questions for 2019: 91% of residents are satisfied with the ease of accessing Council information. With regards to information supplied from WDC in the last 12 months, 7% of residents felt they had more than enough information supplied, while 52% felt they had enough information. One quarter of residents (25%) felt there was some information supplied from WDC.

Satisfaction with Councillors	No performance target	-	89%	92%	93%	89%	91%	+2%	-

CUSTOMER SERVICE

In a series of new questions for 2019: More than half of residents (55%) had contact with WDC Customer Services in the last 12 months. Of these residents, 68% made contact via telephone, 63% in person, and 17% made contact via email.

In terms of impressions of first point of contact, 67% of residents agreed their enquiry was handled politely, and professionally. Forty-one per cent of residents agreed their enquiry was handled in a timely manner, and 31% agreed it was handled fairly.

Method and Sample

Method and Sample

Objectives

Waitomo District Council (WDC) is the local authority responsible for the delivery of community services and facilities to residents in Te Kuiti, Waitomo Caves, Piopio, and surrounding rural areas. In order to monitor residents' perceptions of Council and their satisfaction with the delivery of services, WDC has undertaken an annual resident survey.

The main goal of this survey is to report against the 12 specific performance measures related to: Governance - Leadership and Investments; Community Services; Community Development; Compliance; and Solid Waste Management.

Weights

Weighting ensures that specific demographic groups are neither under nor over represented in the final data set, and that each group is represented as it would be in the population. Age and gender weightings have been applied to data within these results.

Weighting gives greater confidence that the final results are representative of the district's population overall. The proportions used for the age weights are taken from the 2013 Census (Statistics New Zealand). The proportions used are shown in the table below:

Approach

The primary target audience for this research is residents within the Waitomo district.

Contact details for residents were sourced through the electoral roll, as this allows access to a broad range of residents, not just ratepayers within the district.

A total of n=5,864 residents were selected from the electoral roll and invited to participate in the survey. A total of 2,871 residents within Te Kuiti township were posted a letter with a unique link to complete the online survey, and given the internet connectivity in the smaller, more rural communities, 2,993 Waitomo district residents who live in smaller rural communities were posted a letter with the full survey to complete and return to Versus Research via freepost

A total of n=504 completed surveys were received from residents; 53% completed the survey via the online link, an increase in online participation compared with last year (cf. 2018, 20%), while 47% completed a paper copy of the survey.

Interviewing for this work was completed between the 20th of May and the 21st of June, 2019.

Demographic	Population %
Male 39 and under	16%
Female 39 and under	16%
Male 40-59 years	19%
Female 40-59 years	20%
Male 60 and older	14%
Female 60 and older	15%

Margin of Error

Margin of Error (MoE) is a statistic used to express the amount of random sampling error present in a survey's results.

The MoE is particularly relevant when analysing a subset of the data as smaller sample sizes incur a greater MoE.

The final sample size for this study is n=504, which gives a maximum margin of error of +/- 4.38% at the 95% confidence interval, that is, if the observed result on the total sample of n=504 respondents is 50% (point of maximum margin of error), then there is a 95% probability that the true answer falls between 45.62% and 54.38%.

Method and Sample

Questionnaire

The questionnaire was designed by Waitomo District Council in conjunction with Versus Research. A copy of the questionnaire is included at the end of this report.

Notes on Reporting

Satisfaction ratings were made on a 1-5 scale, this scale has been grouped for ease of reporting. Ratings have been grouped as a two-point scale. Groupings are shown below.

1 2	Very dissatisfied Dissatisfied	Total dissatisfaction
3	Somewhat satisfied	Total satisfaction
4 5	Satisfied Very satisfied	

Results are shown at a total level for all measures.

In the final section of the report, results have also been analysed by different areas, grouped as Te Kuiti, Rural North, Rural Central, and Rural South and East; and details any statistically significant differences for each area.

The map, overleaf, shows the sample breakdown by each area.

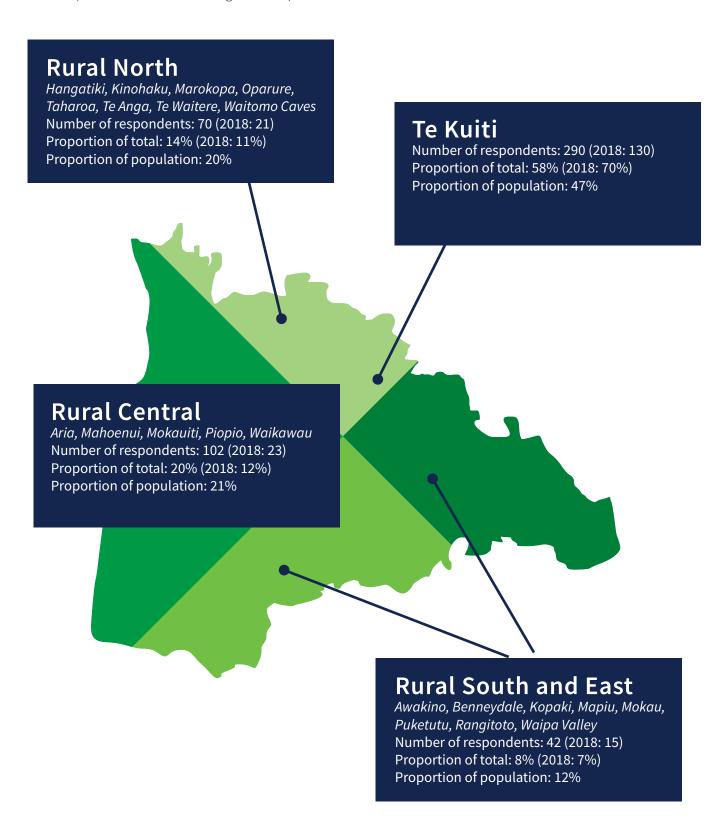

Please note, not all percentages shown add up to 100%. This is due to rounding and/or occurs where questions allow multiple responses.

Statistical Testing

Statistical testing has been applied to figures in this report. This testing compares 2019 results with results from 2018. When changes are statistically significant at the 95% or 99% confidence level, these differences are highlighted in **blue** (significantly greater) or **yellow** (significantly lower).

Sample Map

The map below shows the unweighted sample breakdown of each area.

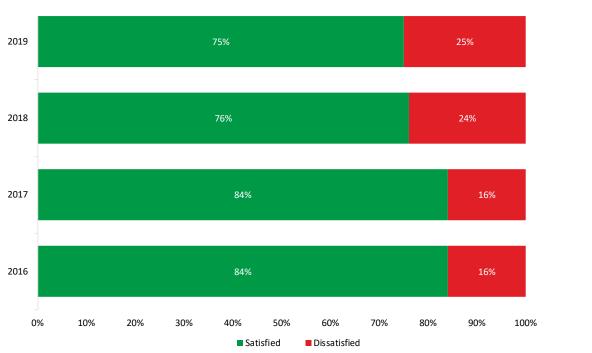

Roads and Footpaths

Overall Condition of Sealed Roads in District

In 2019, 75% of residents are satisfied with the overall condition of sealed roads in the district. Concurrently, 25% of residents are dissatisfied with the overall condition of sealed roads in the district. This year's results remain similar to last year's results.

By Residents

Base: 2016 n=325; 2017 n=296; 2018 n=184; 2019 n=504.

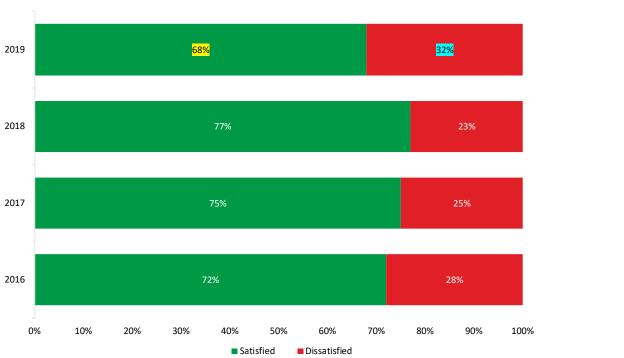

Overall Condition of Unsealed Roads in District

Sixty-eight per cent of residents are satisfied with the overall condition of unsealed roads in the district, a significant decrease compared with last year (cf. 2018, 77%). This corresponds with a significant increase in residents who are dissatisfied this year (32% cf. 2018, 23%).

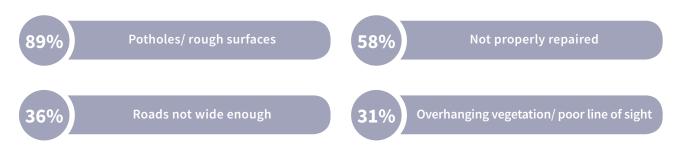

By Residents

Base: 2016 n=305; 2017 n=268; 2018 n=173; 2019 n=504.

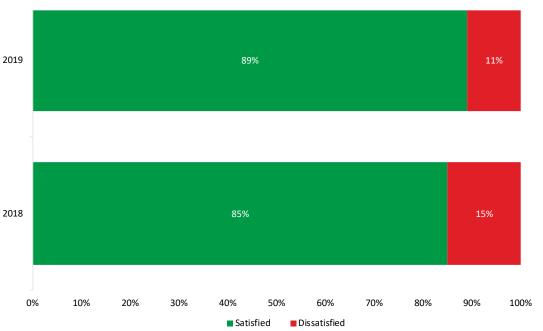

Standard of Pedestrian Crossings

The majority of residents (89%) are satisfied with the standard of pedestrian crossings, while not statistically significant, this is a 4% increase compared to last year. A further 11% are dissatisfied with the standard of pedestrian crossings.

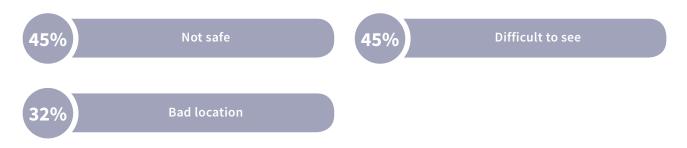

By Residents

Base: 2018 n=177; 2019 n=504.

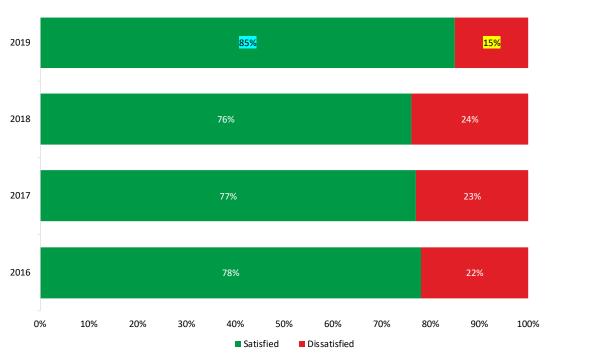

Standard of Public Footpaths Safe and Accessible

Eighty-five per cent of residents are satisfied that the standard of public footpaths are safe and accessible, a significant increase compared with last year (cf. 2018, 76%). This corresponds with a significant decrease in the number of residents who are dissatisfied this year (15% cf. 2018, 24%).

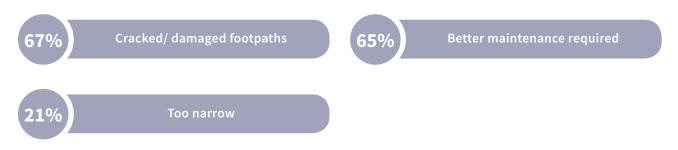

By Residents

Base: 2016 n=318; 2017 n=288; 2018 n=174; 2019 n=504.

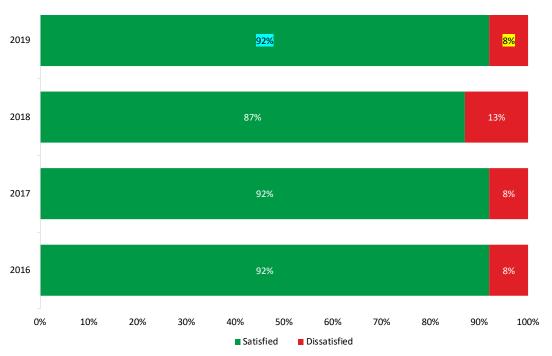

Road Signs and Markings are Visible and Assist Road Safety

The majority of residents are satisfied (92%) that road signs and markings are visible and assist road safety. This is a significant increase compared with last year (cf. 2018, 87%). Concurrently, 8% of residents are dissatisfied that road signs and markings are visible and assist road safety, a significant decrease compared with last year (cf. 2018, 13%).

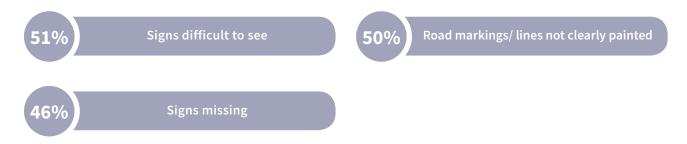

By Residents

Base: 2016 n=318; 2017 n=293; 2018 n=176; 2019 n=504.

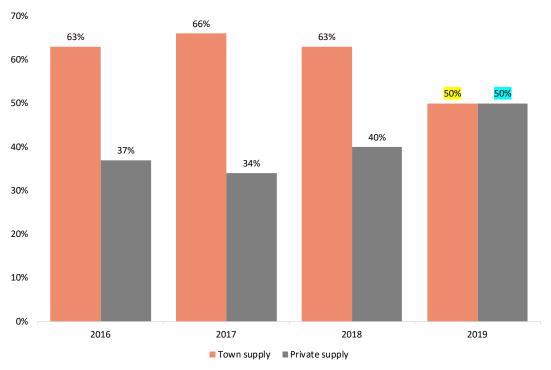

Water Supply Services

In 2019, 50% of residents indicated that they are connected to WDC's supply of water, a significant decrease compared to last year (cf. 2018, 63%). Concurrently, residents who use a private water supply has significantly increased (50% cf. 2018, 40%).

These results correspond with a higher number of rural respondents this year.

By Residents

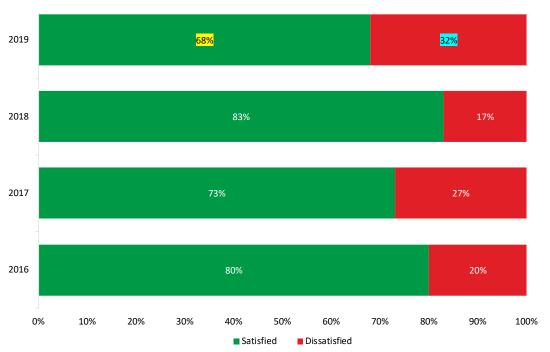

Base: 2016 n=323; 2017 n=303; 2018 n=185; 2019 n=504.

Council's Provision of Water Supply Services

Sixty-eight per cent of residents who are water supply users are satisfied with WDC's water supply services. This is a significant decrease compared with last year (cf. 2018, 83%). A further 32% of residents are dissatisfied, a significant increase compared with last year (cf. 2018, 17%).

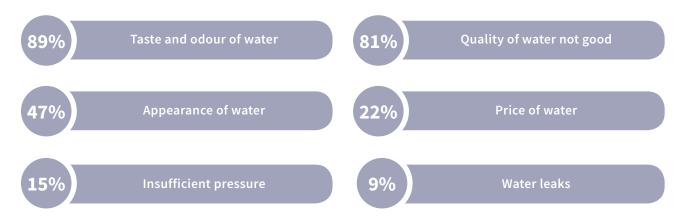

By Residents

Base: 2016 n=205; 2017 n=197; 2018 n=115; 2019 n=256.

Reasons for Dissatisfaction

Base: 2019 n=71.

Sewerage -Treatment and Disposal

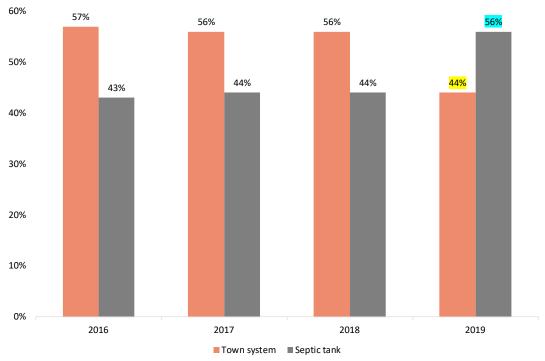

Sewerage System

Forty-four per cent of residents who responded, use WDC's sewerage system in 2019. This is a significant decrease compared with last year (cf. 2018, 56%). Concurrently, 56% of residents have a septic tank, a significant increase compared with last year (cf. 2018, 44%).

These results correspond with a higher number of rural respondents this year.

By Residents

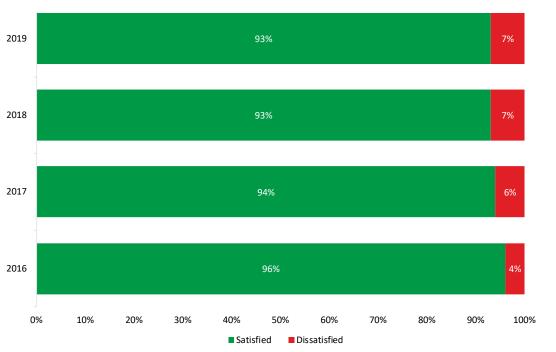

Base: 2016 n=326; 2017 n=303; 2018 n=184; 2019 n=504.

Sewerage Treatment Service in the Community

The majority of residents (93%) are satisfied with the sewerage treatment service in the community. A further 7% are dissatisfied with this service. These results are on par with last year's results.

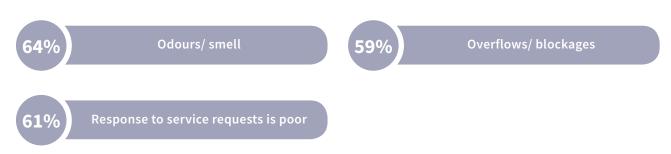

By Residents

Base: 2016 n=185; 2017 n=177; 2018 n=107; 2019 n=221.

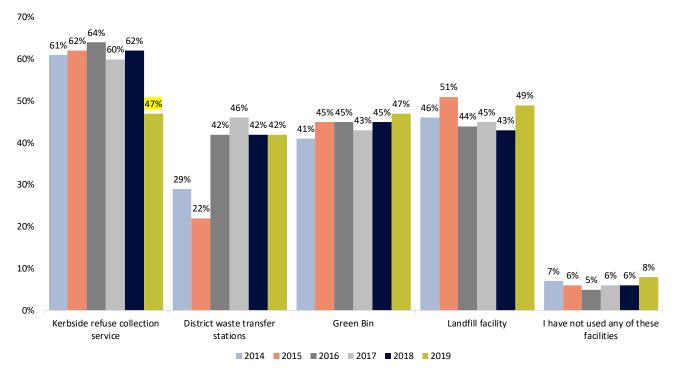

Refuse and Recycling

Council Refuse and Recycling Services

Less than half of residents (47%) have used the kerbside refuse collection service in the last 12 months, a significant decrease compared with last year (cf. 2018, 62%). Following this, 42% of residents have used the district waste transfer stations, 47% have used a green bin, and 49% have used a landfill facility. Eight per cent of residents have not used any of these facilities in the last 12 months.

By Residents

Base: 2014 n=470; 2015 n=439; 2016 n=322; 2017 n=290; 2018 n=178; 2019 n=504.

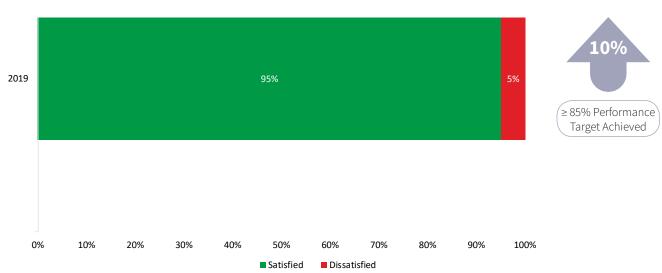

Note: District Transfer Stations (DTS) are provided in: Te Kuiti, Piopio, Marokopa, Kinohaku, Mokau/Awakino, and Benneydale.

Safety of Facilities (Landfill & District Transfer Stations)

With regards to the landfill and district transfer stations, 95% of residents are satisfied with the safety of the facilities (landfill and district transfer stations). This exceeds the performance target of ≥ 85% resident satisfaction by 10%. This question was previously asked as two seperate questions, satisfaction ratings for previous years are tabulated below.

By Residents

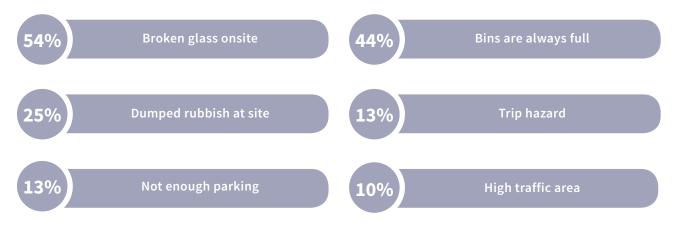

Base: 2019 n=468.

	2014	2015	2016	2017	2018
Satisfaction with safety of the facilities - landfill facility	92%	97%	98%	96%	92%
Satisfaction with safety of the facilities - district transfer stations	90%	95%	95%	91%	95%

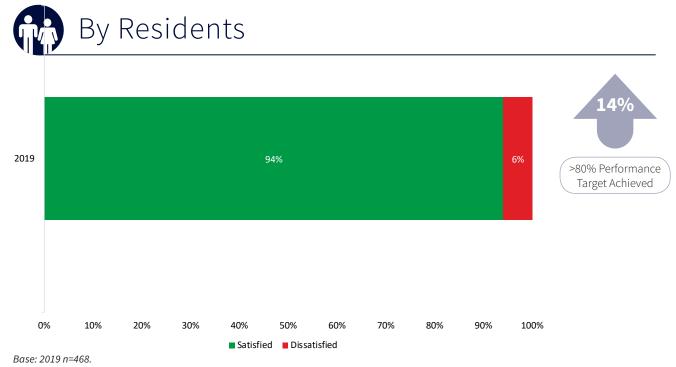

Reasons for Dissatisfaction

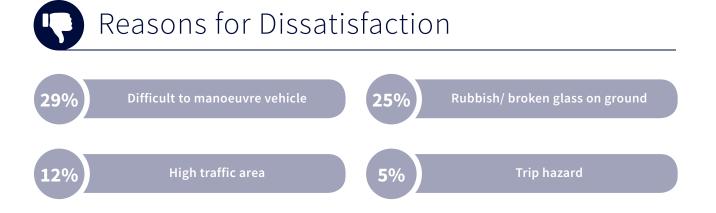

Base: 2019 n=23.

Provision of Waste Management Facilities

The majority of residents (94%) are satisfied with the provision of waste management facilities. Concurrently, 6% of residents are dissatisfied with the provision of waste management facilities. This exceeds the performance target of greater than 80% resident satisfaction by 14%. This question was previously asked as satisfaction of the provision of waste transfer stations to the community; satisfaction ratings for previous years are tabulated below.

	2014	2015	2016	2017	2018
Provision of waste transfer stations to the community	78%	87%	85%	88%	90%

Reducing Waste at Home

In a new question for 2019, residents were asked how they reduce their waste at home. Sixty-two per cent of residents recycle plastic, glass, tin and paper all of the time, while 52% compost food waste all of the time. At a lower level, 19% of residents choose products with packaging that can be recycled, 16% choose products with little or no packaging, 15% use long life products rather than disposables, and 7% of residents purchase second-hand goods all of the time.

Base: 2019 n=504.

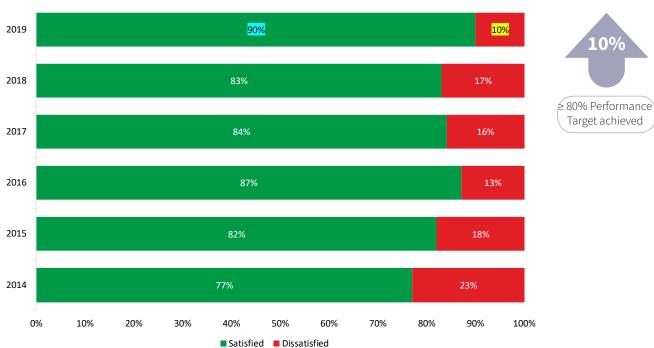

Community Services

Quality of Parks and Reserves

Ninety per cent of residents are satisfied with the quality of parks and reserves in the district. This is a significant increase compared with last year (cf. 2018, 83%), and exceeds the performance target of ≥ 80% resident satisfaction by 10%. Concurrently, there is a significant decrease in the number of residents who are dissatisfied (10% cf. 2018, 17%).

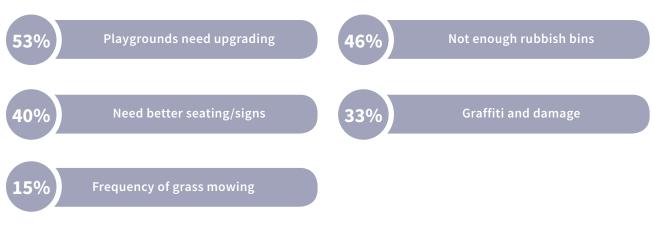

By Residents

Base: 2014 n=315; 2015 n=363; 2016 n=305; 2017 n=275; 2018 n=181; 2019 n=504.

Reasons for Dissatisfaction

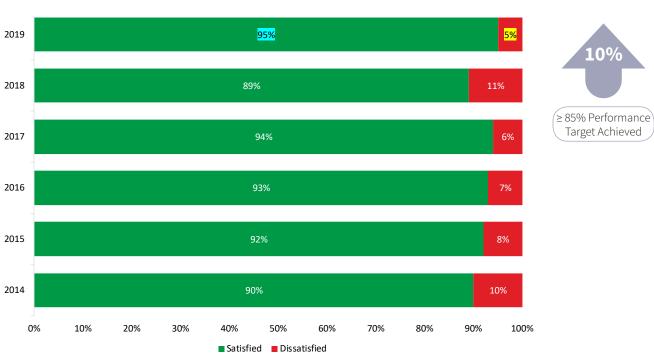

Base: 2019 n=48.

Quality of Library Facilities at Waitomo District Library

The majority of residents (95%) are satisfied with the quality of library facilities and services at Waitomo District Library. This is a significant increase compared with last year (cf. 2018, 89%), and exceeds the performance target of ≥ 85% resident satisfaction by 10%. Concurrently, there is a significant decrease in the number of residents who are dissatisfied (5% cf. 2018, 11%).

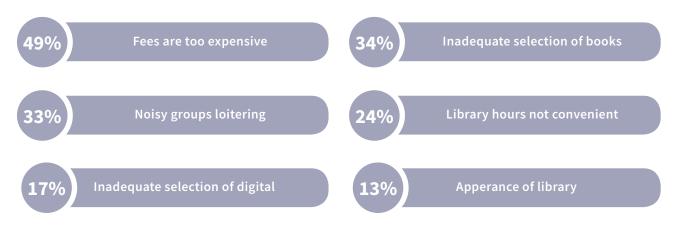

By Residents

Base: 2014 n=305; 2015 n=361; 2016 n=292; 2017 n=242; 2018 n=170; 2019 n=504.

Reasons for Dissatisfaction

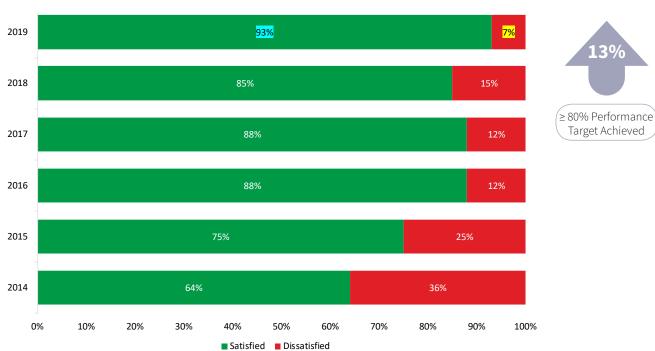

Base: 2019 n=21.

Quality of Pool Facility Meeting Residents' Needs

The majority of residents (93%) are satisfied that the pool facility (District Aquatic Centre) is of good quality and meets the needs of residents. This is a significant increase compared with last year (cf. 2018, 85%), and exceeds the performance target of ≥ 80% resident satisfaction by 13%. Concurrently, there is a significant decrease in the number of residents who are dissatisfied (7% cf. 2018, 15%).

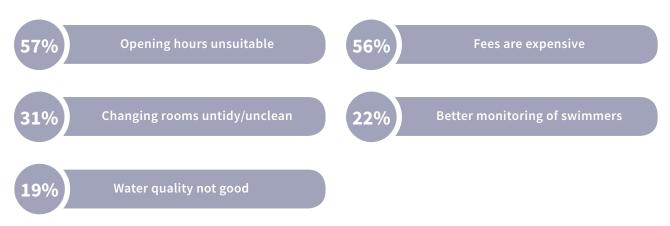

By Residents

Base: 2014 n=193; 2015 n=259; 2016 n=234; 2017 n=188; 2018 n=136; 2019 n=504.

Reasons for Dissatisfaction

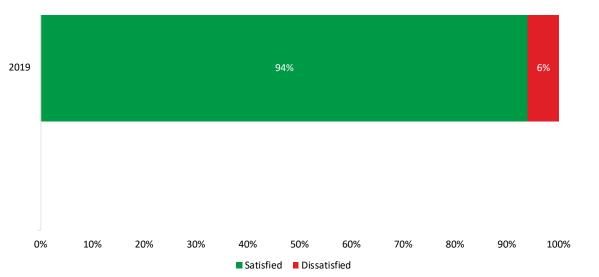

Base: 2019 n=33.

Toilet and Changing Facilities at the Aquatic Centre

In a new question for 2019, 94% of residents are satisfied with the toilet and changing facilities at the District Aguatic Centre. A further 6% are dissatisfied with the facilities.

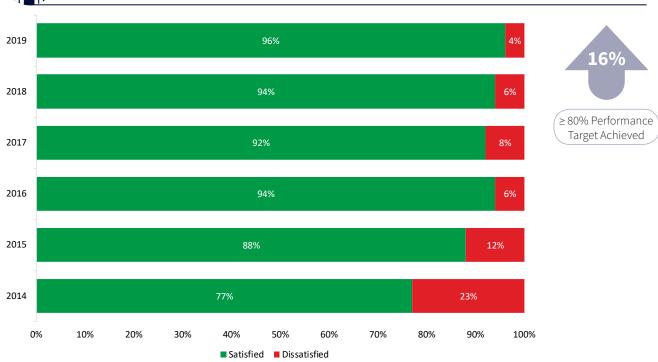

Base: 2019 n=504.

Quality of Les Munro Centre (Arts and Culture Facilities)

The majority of residents (96%) are satisfied with the quality of the Les Munro Centre (arts and culture facilities). This is a 2% increase compared with last year, and exceeds the performance target of ≥ 80% by 16%. A further 4% of residents are dissatisfied with the quality of the Les Munro Centre.

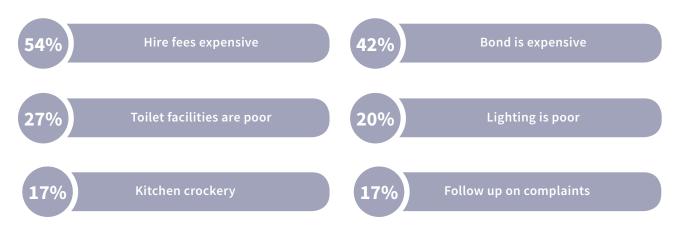

By Residents

Base: 2014 n=261; 2015 n=341; 2016 n=273; 2017 n=237; 2018 n=163; 2019 n=504.

Reasons for Dissatisfaction

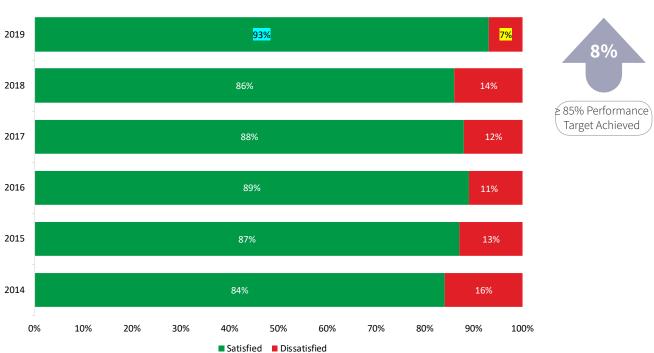

Quality of Public Amenities -Public Toilets and Cemeteries

Ninety-three per cent of residents are satisfied with the quality of public amenities (public toilets and cemeteries). This is a significant increase compared with last year (cf. 2018, 86%), and exceeds the performance target of ≥ 85% resident satisfaction by 8%. Concurrently, there is a significant decrease in residents who are dissatisfied this year (7% cf. 2018, 14%).

By Residents

Base: 2014 n=261; 2015 n=362; 2016 n=304; 2017 n=271; 2018 n=173; 2019 n=504.

Reasons for Dissatisfaction

Base: 2019 n=36.

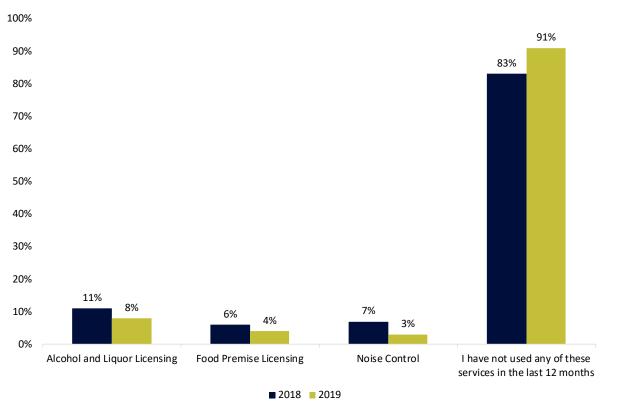

Environmental Health Services

Council Services Used

With regards to WDC services used in the last 12 months, 91% of residents stated they had not used any. Of those who had, 8% used alcohol and liquor licensing services, 4% used food premise licensing services, while 3% had used noise control in the past 12 months.

By Residents

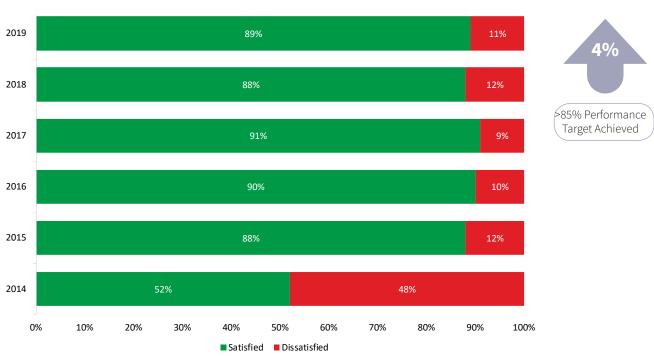

Base: 2018 n=160; 2019 n=504.

Provision of an Effective Environmental Health Service

In 2019, 9% of residents used a Council-provided Environmental Health Service. The majority of these residents (89%) are satisfied with the provision of an effective Environmental Health Service for the community. This exceeds the performance target of greater than 85% resident satisfaction by 4%.

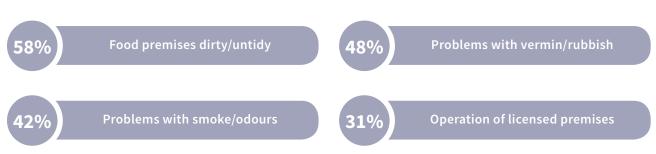

By Residents

Base: 2014 n=21; 2015 n=68; 2016 n=60; 2017 n=46; 2018 n=40; 2019 n=47.

Reasons for Dissatisfaction

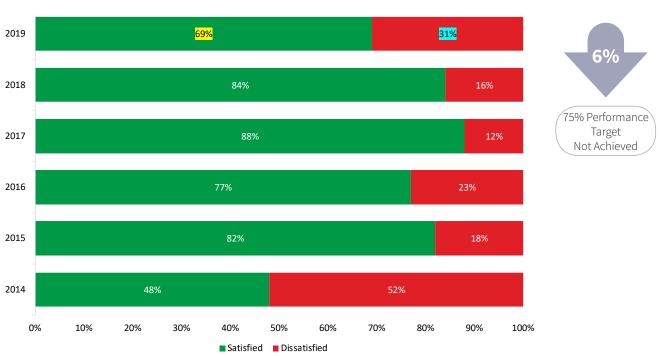

Building Control Service

Provision of Building Control Service for the Community

In 2019, 14% of residents used Building Control Services in the last 12 months. Of these residents, 69% are satisfied with the provision of an effective Building Control Service for the community. This is a significant decrease compared with last year (cf. 2018, 84%), and does not reach the performance target of 75% resident satisfaction. This year, there is a significant increase in the number of residents who are dissatisfied (31% cf. 2018, 16%).

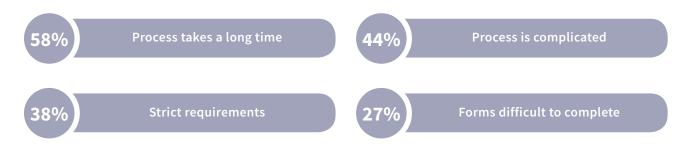

By Residents

Base: 2014 n=23; 2015 n=67; 2016 n=53; 2017 n=41; 2018 n=127; 2019 n=68.

Reasons for Dissatisfaction

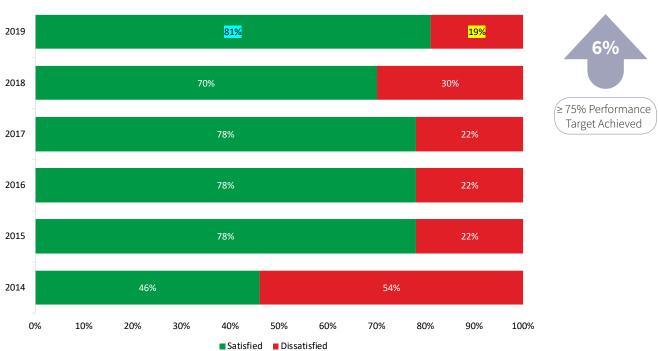

Animal Control Service

Council's Provision of Effective Animal Control Service

Eighty-one per cent of residents are satisfied with the provision of an effective Animal Control Service for the community. This is a significant increase compared with last year (cf. 2018, 70%), and it exceeds the performance target of ≥ 75% resident satisfaction by 6%. Concurrently, there is a significant decrease in the number of residents who are dissatisfied this year (19% cf. 2018, 30%).

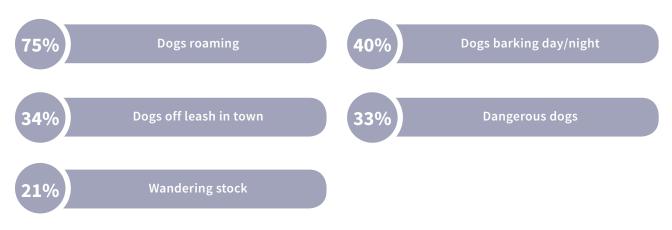

By Residents

Base: 2014 n=295; 2015 n=123; 2016 n=292; 2017 n=260; 2018 n=160; 2019 n=504.

Reasons for Dissatisfaction

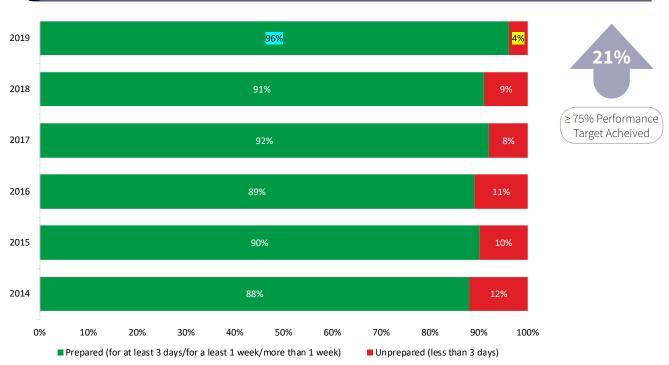

Base: 2019 n=97.

Emergency Management

Preparedness for a Natural Disaster

In a new question for 2019, less than half of residents (42%) have an emergency plan in place. However, the majority of residents (96%) are prepared to survive unaided (without outside assistance) in the event of a natural disaster for at least three days. This is a significant increase compared with last year (cf. 2018, 91%), and exceeds the performance target of ≥ 75% resident preparedness by 21%. There is a significant decrease in the number of residents who feel unprepared this year (4% cf. 2018, 9%).

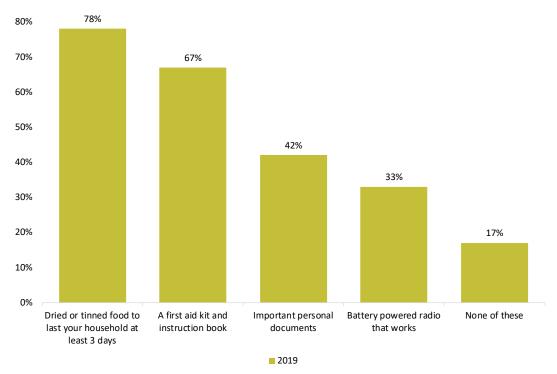

Base: 2014 n= 470; 2015 n=439; 2016 n=303; 2017 n=277; 2018 n=164; 2019 n=504.

Emergency Survival Kit

In a new question for 2019, residents were asked about being prepared for a natural disaster, and what they have in their emergency kit. More than three-quarters (78%) have dried or tinned food to last their household for at least three days, 67% have a first aid kit and instruction book, while 42% have important personal documents, and 33% have a battery powered radio that works. Seventeen per cent of residents had none of these items.

By Residents

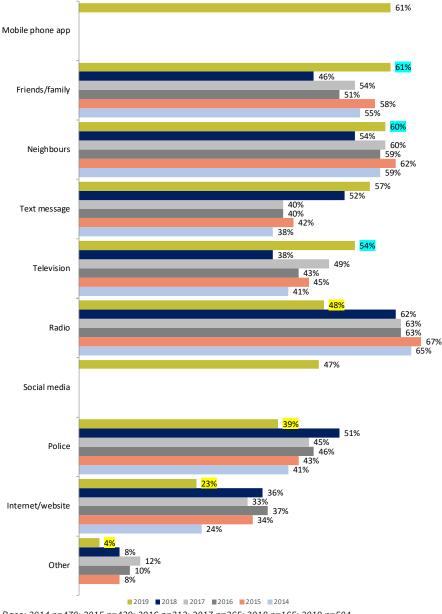

Base: 2019 n=504.

Method of Receiving Emergency Messages in a Natural Disaster

Residents were asked how they would expect to receive emergency messages in the event of a natural disaster. Sixty-one per cent of residents would expect to receive an emergency alert via a mobile phone app. A further 61% would expect to hear from their friends and family, a significant increase compared with last year (cf. 2018, 46%), and 60% from their neighbours, also a significant increase (cf. 2018, 54%). This year, there is a significant increase in residents who would expect to hear emergency messages on the television (54%, cf. 2018, 38%).

Base: 2014 n=470; 2015 n=439; 2016 n=312; 2017 n=265; 2018 n=165; 2019 n=504.

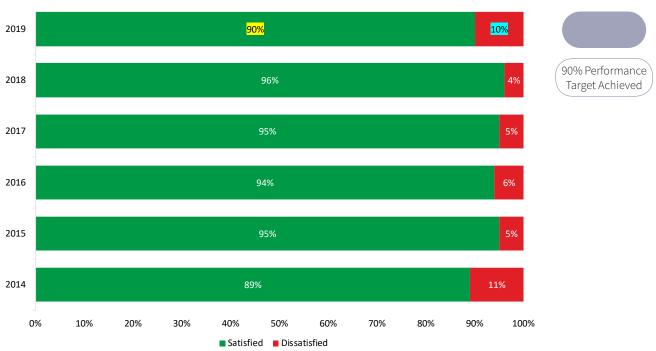

Council Communications

Usefulness and Effectiveness of Council Communications

With regards to the usefulness and effectiveness of Council communications, 90% of residents are satisfied, a significant decrease compared with last year (cf. 2018, 96%). However, the performance target of 90% resident satisfaction is achieved. A further 10% of residents are dissatisfied with Council communications, a significant increase compared with last year (cf. 2018, 4%).

By Residents

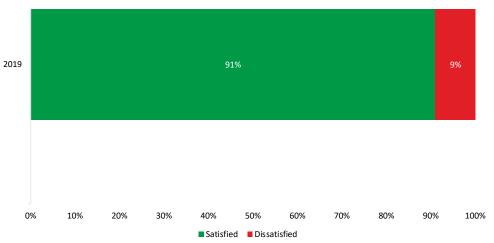

Base: 2014 n=250; 2015 n=366; 2016 n=301; 2017 n=274; 2018 n=180; 2019 n=504.

Ease of Accessing Council Information

In a new question for 2019, 91% of residents are satisfied with the ease of accessing Council information. A further 9% are dissatisfied with the ease of accessing Council information.

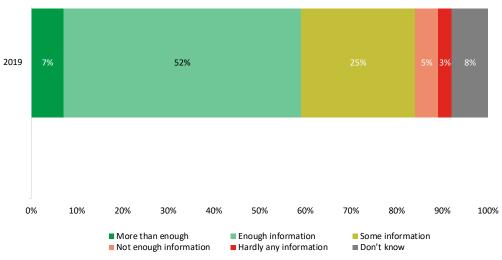

Base: 2019 n=504.

In a new question for 2019, 7% of residents felt they had more than enough information supplied from WDC in the last 12 months, while 52% felt they had enough information. One quarter of residents (25%) felt there was some information supplied from WDC, while 5% felt there was not enough information. Three per cent of residents felt there was hardly any information, and 8% were unsure how to answer.

Information Supplied: By Residents

Base: 2019 n=504.

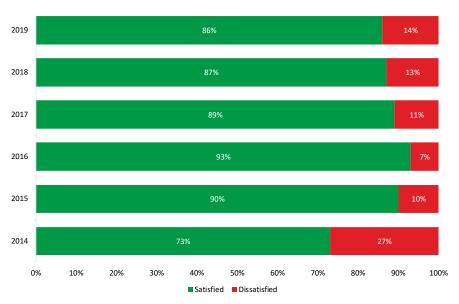

Council's Overall Performance

Council's Efficiency with Resources and Funding

Eighty-six per cent of residents are satisfied with Council's efficiency with resources and funding, while 14% are dissatisfied with this. This result is similar to last year's result.

By Residents

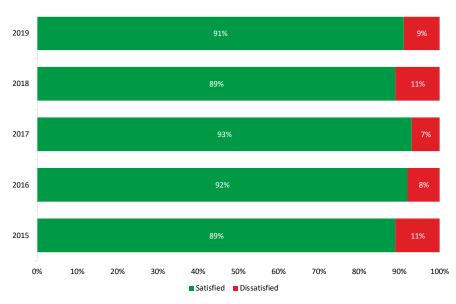

Base: 2014 n=233; 2015 n=386; 2016 n= 301; 2017 n=275; 2018 n=176; 2019 n=504.

The majority of residents (91%) are satisfied that Councillors are approachable and have the best interests of the district. This is a 2% increase compared with last year.

Councillors Approachable: By Residents

Base: 2015 n=???; 2016 n=302; 2017 n=269; 2018 n=174; 2019 n=504.

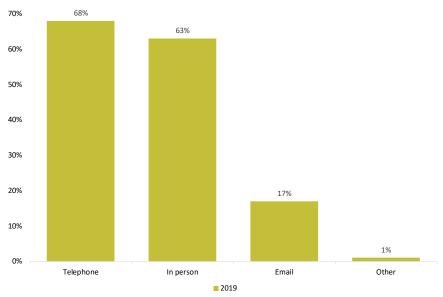

Customer Services

Contact with WDC Customer Services

Fifty-five per cent of residents had contact with WDC Customer Services in the last 12 months. Of these residents, 68% made contact via telephone, 63% in person, and 17% made contact via email.

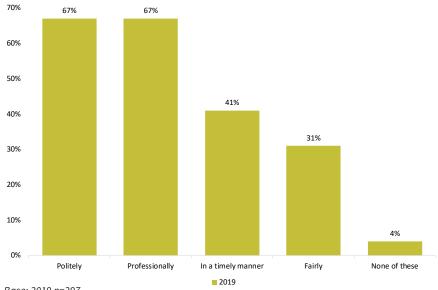

By Residents

In terms of impressions of the first point of contact, 67% (each) of residents agreed their enquiry was handled politely, and professionally. Forty-one per cent of residents agreed it was timely, and 31% agreed it was fair. Four per cent of residents stated the service they received was none of these.

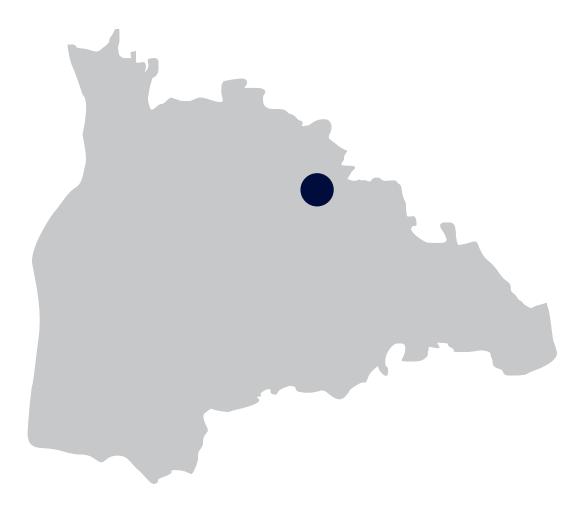

First Point of Contact: By Residents

Base: 2019 n=297.

Te Kuiti

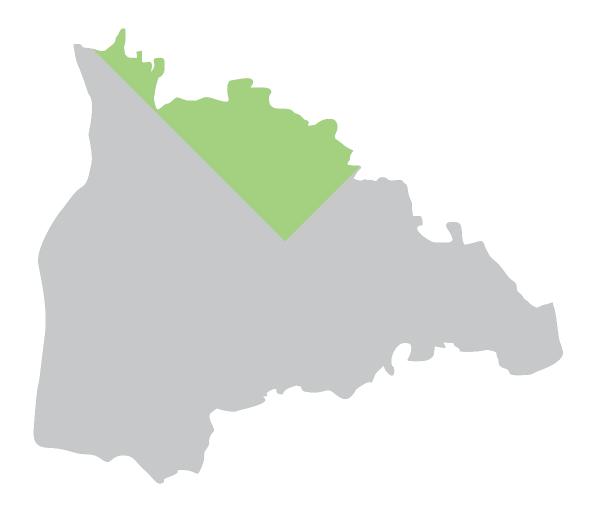

Residents in Te Kuiti are significantly more likely to be satisfied with the overall condition of unsealed roads in the district (77% cf. total, 68%).

These residents are significantly more likely to be connected to a WDC-provided water supply than other residents in the district (73% cf. total, 50%).

Te Kuiti residents are significantly more likely to be connected to a WDC-provided sewerage system (69% cf. total, 44%), and significantly less likely to have a septic tank (31% cf. total, 56%).

Rural North

Rural North residents are significantly more likely to be satisfied with the standard of pedestrian crossings in the district (97% cf. total, 89%).

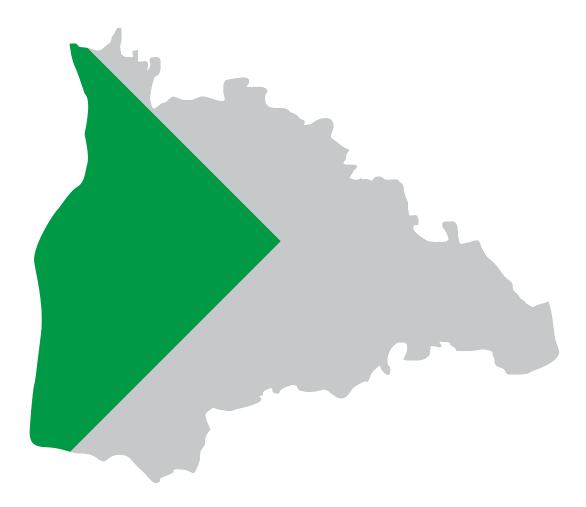

These residents are significantly less likely to be connected to a WDC-provided water supply (3% cf. total, 50%), and significantly more likely to have a private water supply (97% cf. total, 50%).

Rural North residents are significantly less likely to be connected to a WDC-provided sewerage system (3% cf. total, 44%), and significantly more likely to have a septic tank (97% cf. total, 56%).

Regarding sewerage - treatment and disposal, Rural North residents are significantly less likely to be satisfied with Council's provision of an adequate treatment and disposal service (31% cf. total, 93%), and significantly more likely to be dissatisfied (69% cf. total, 7%).

These residents are significantly more likely to be satisfied with the toilet and changing facilities at the District Aquatic Centre (99% cf. total, 94%).

Rural Central

Rural Central residents are significantly less likely to be satisfied with the overall condition of unsealed roads in the district (50% cf. total, 68%), and significantly more likely to be dissatisfied (50% cf. 2018, 32%).

These residents are significantly less likely to be connected to a WDC-provided water supply (22% cf. total, 50%), and significantly more likely to have a private water supply (78% cf. total, 50%).

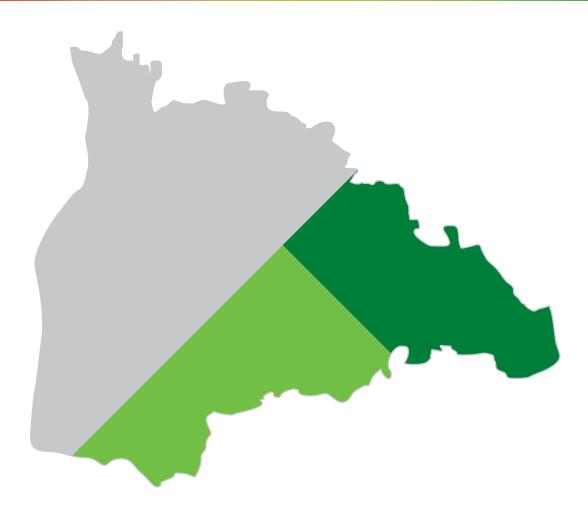

Rural Central residents are significantly more likely to be satisfied with Council's provision of their water supply service than other residents (98% cf. total, 68%).

These residents are significantly less likely to be connected to a WDC-provided sewerage system (16% cf. total, 44%), and significantly more likely to have a septic tank (84% cf. total, 56%).

These residents are significantly more likely to be satisfied that the District Aquatic Centreis of good quality and meets the needs of residents (100% cf. total, 93%). These residents are also significantly more likely to be satisfied with the toilet and changing facilities at the District Aquatic Centre (99% cf. total, 94%).

These residents are significantly more likely to be satisfied with the usefulness and effectiveness of Council communications (97% cf. total, 90%).

Rural South and East

Rural South and East residents are significantly less likely to be connected to a WDC-provided sewerage system (14% cf. total, 44%), and significantly more likely to have a septic tank (86% cf. total, 56%).

These residents are significantly less likely to be satisfied with Council's provision of an adequate treatment and disposal service (62% cf. total, 93%), and significantly more likely to be dissatisfied (38% cf. total, 7%).

Rural South and East residents are significantly less likely to be satisfied with the quality of public amenities than other residents (79% cf. total, 93%).
